- Who will benefit from the activity and how; and

The track where we propose to have a contractor build steps was opened approximately 7 years ago. It was quite rough and ready and incurred a slip early on. Over the last four years volunteers have been steadily upgrading the track by rerouting steep sections, cutting steps, benching many sloped areas and adding gravel. This has brought the track to a higher standard. But two steep areas are beyond the ability of unskilled volunteers to improve. These require steps built to rigorous DOC standards and for this we are requesting funding to have a contractor complete them, With all the improvements on the track in the last few years we have seen an explosion in useage. Build it and they will come obviously applies here. The problem is that outside the dry season the steep areas are slippery, muddy and unsafe for all but the most experienced trampers. This is in an urban area where people are walking in sneakers or sandals, not boots. People are clearly craving a bush walking experience in addition to the beach and road walks currently available in the area. Our trapping and planting is making the walk more attractive and alive with native birds. People love that together with the many views to the sea. This is a special place which will be made more accessible to the public through this work. This will allow the public to improve their health through access to this and other tracks on the reserve. This meets a growing community need for outdoor activity.
