- 8 May - Audit Risk & Finance Committee Meeting via Teams

---

## 2) Information Updates:

### Community Board Submission to the Annual Plan: Our Community

Board submitted a submission to the FNDC 20/21 Annual Plan. Asking that the drought and Covid 19 are covered for the economic recovery. Support of Te Ahu for \$50k and Mangonui Information Centre for \$10k. Also we asked that Council investigate a toilet be placed at Unahi. Maritime Facilities: - That the Council investigate/support a study being done on the impacts of growth for recreational marine users as trailer boat parking exceeds capacity throughout the Te Hiku ward, e.g. Mill Bay Mangonui.

Te Hiku Sports Hub: At the Council Meeting 23 April 20 passed a resolution for the remaining third of \$3m to fund the build of the Te Hiku Sports Hub, \$6m was raised by this Community. Our Community Board has supported this proposal from day one when the proposal was first presented in 2014. The Te Hiku Sports Hub Committee are now working on detailed design for the complex. This project when complete will be extremely beneficial for our community.

Centennial/Jaycee Park: A Flying Fox was installed in March 20. The Board is now deciding on detailed design of a revamp of the old site into toilets. The contract has been let to extend the footpath through the rest of the park.

Te Hiku Revitalisation Master Plan: During lockdown detailed design by a landscape architect and members of our community (via zoom meetings) have drawn up a Master Plan of Kaitaia, Ahipara, Awanui through to Waipapakauri. Out of this plan 'shovel ready projects' were identified and forwarded for consideration to the Government. A big thank you to the Landscape Designer, Cr Felicity Foy and members of our community who contributed to what is called Te Hiu O Te Ika Revitalisation Master Plan. Our Community Board supported 50% of the Masterplan Design with the Kaitaia Business Association. This is a living document that will have further consultation with our communities.

Water:- Kaitaia is still at level 4 water restrictions. The Awanui River is below the consented level of the water take, with no significant rain to date. The Council has put in place a backup water supply from a bore in Bonnetts Road/Te Rarawa Farms, also a supply is being piped from the sweetwater bore to Birds Road for Water tankers to refill. This will take the pressure off our Kaitaia water supply.

ANZAC Day Video: - During lockdown a video was made for a virtual ANZAC Service in conjunction with our Community Board and the Kaitaia RSA, where various members of the community spoke on this video. Thank you to Community Board Member John Stewart and the Baucke Family who helped make this happen. I have provided the link below if you would like to watch this video.

**3) Issues:** Our Community Board would like to address all the Halls in the Te Hiku Ward. There are a number of halls that the usage is very low, these Halls are funded from the Ward Rate and impacts back on to our Te Hiku Ratepayers. Consultation with the Hall committees and communities in these areas is paramount.

**4) Resource Consents: N/A**

**5) Resource Consents: N/A**
