Issues

CHERRY PARK HOUSE

A meeting with Rob Stewart from the Council and the Management Committee Chair has been held. Among the issues discussed were the long-term arrangements between Council and the Management Committee, health and safety issues, insurance issues, and the moving of the Art Group kiln in the basement. I have been asked to get the chair to provide further information. I have yet to do that.

OBSERVATIONS AFTER TWELVE MONTHS

I have now been a member of the Community Board for close on twelve months. I have found those twelve months to have been very frustrating at times. I choose not to put those frustrations in a document likely to find its way into the public domain, but I sincerely hope that at some stage members of the Board including myself might be given the opportunity to discuss our views and concerns with appropriate Council personal as provided for in our terms of reference and delegations.
