Hi Selina

The road names proposed below are okay as there are no conflicts with existing road names in RAMM.

Morning Cush,

His road name suggestions are:

Keri Heights
Kerikeri Heights
Highland Way

This is a sub-division addressed at 11 Greenway Drive Kerikeri. I have already prepped the report Aram, just need your ok for the suggestions Cush

Hi Aisha - see below email chain.

The key question I need your help from Governance Dept from is **"Is there any way this can be included in the CB Meeting agenda?"**

Please advise of our options, if we get the required 2-page report completed by midday tomorrow.

Thanks

Hi Tania and Andy

A member of the public has sent correspondence to the CEO regarding a Road naming Application and a missed deadline for the CB Meeting which is not his fault. Can this be looked at as a priority please.

RFS4034544 has been raised. Can you please;

- Assign to the appropriate staff/department in your group,
- Provide the customer with a D&F,
- Respond to the customer, update the RFS and proceed to close once completed.

If this matter is a duplicate or an RFS has been raised in your department please close and link to this RFS.

Thanks
Ellen

18 November 2020

I returned Mr McClelland's phone call.

He has all but completed a subdivision in - Greenway.

On 11 Nov he completed a Road Naming Application.

He was subsequently contacted by Selina (2x) advising him he needed to do a Naming Application.
He said he had already done this and provided all the necessary information.

Selina then got back in contact and advised we did have the information and she was doing the report BUT that he had now missed the deadline for the Bay of Islands-Whangaroa Community Board Meeting which is scheduled for 3 December and the Board will not be meeting again until next year.

He is now unable to complete his 223 and 224

Is there any way this can be included in the CB Meeting agenda?

Hi Ellen,

wonder if you could please call me on 0275696090 asap.

Your cell phone seems to be off and the voice mail is for the previous pa.
