Resource Consents

NONE

To reiterate last months comments

Either there is a massive decline in Resource Consents or the process of sending them to Community Boards has changed, it would be a courtesy if RC's are not to be sent to CB that we be notified of change.

Requests for Service/information

None submitted.

Re: Mission Road

Have receive a few brief reply "Our footpaths are to spec" this of course does not answer the question(s) I was attempting to raise e.g. Did FNDC strengthen the footpath to provide for non-permitted activity, did FNDC approve the actions of a subcontractor in charging ratepayers additional funds for strengthening their driveways??

In progress

Windsor Landing.

Rangitane launching Ramp proposal now with Project Management Company who will review all objections to the proposed project.

Kerikeri Domain Working Group Continues and has produced the plan for the first stage of the project. A sub Committee has been formed to establish a process so that the Community can identify the perceived needs of a building/facility on the Domain.

There was general agreement when the plan was presented at the Community BBQ.

The recent e-mail exchange between elected members and FNDC in regard to the Water shortage and the "lack" of communication certainly identified "short comings" in both our delivery of service and our ability to effectively communicate.

The water issues in Kerikeri over the Xmas period, the lack of water the summer before last in Paihia, and the most recent "boil water" order for Waipapa, would suggest that these are not new or unique issues. Please note I have made no reference to the water and sewerage challenges in Russell, not because of any animosity towards Russell, rather as I lived in Russell for a brief period 24 years ago and these were topics of concern then, I could fill several pages.

What concerned and saddened me was to see the inclusion of a "quoted" korero regarding Paihia and Kerikeri. There is of course no empirical data to suggest that this is true, in fact quite the opposite, the repeating of this "talk" only serves to create divisions within the District and gives the false narrative substance.
