Project outline: *

The Bay of Islands Animal Rescue (BOIAR) has run a desexing programme for dogs in the Far North since 2018 in an effort to alleviate stress on the community and the Council pound system. Our desexing programme helps ensure that less unwanted litters are born, which limits the number of stray and roaming animals and helps protect both dogs and the community, as well as ease numbers in the pound.

We have recently purchased a ute and 9 metre caravan (previously used as a mobile dental caravan) that we are making into a mobile desexing clinic. We need to purchase a generator and specialist vet equipment to furnish it. Once complete, we will we will be able to go out into the communities that are hardest to reach and our vets will be able to provide on-site desexing and vaccination services to community animals. This is particularly important as many living in these communities are unable to get to a vet to take advantage of our desexing programme. Having this caravan fitout completed means we would be able to more easily desex these animals and reduce the impact that unwanted litters continue to have on these areas.

While we feel that we should be funded by central government, the reality is that we are not. Our desexing programme is ongoing and will never stop being offered to our community, nor will we turn our backs on a single animal in need. However, we are constantly seeking financial assistance to ensure that all of the animals in need of care receive it, and assistance in fitting out this desexing caravan would provide a long-term benefit to the animals of the Far North, particularly those located in remote communities.

Project Cost

Provide a detailed cost estimate for the activity. Funding requested may not exceed 50% of the total cost.

*Total Cost - provide the **total** amount of the estimated quoted cost against the appropriate*
