*Community response to Little Shop of Horrors*

 Best musical show in Kerikeri I ever seen in my 18 years living in the town. Amazing talent and the attention to details was more like you expect for larger cities around the world, not for a little provisional town like Kerikeri. Thank you team for all the work, from support crews to local businesses supporting it, to the cast and directors. This is why we need to support the art and creative community. It brings so much joy to a diverse audience and equally it gives the performers and support crew an amazing life experience and enrichment and who knows where their journey may take them next! And finally thank you to the Turner Centre for making it accessible and hosting it! Now KTC - which show will be next...The Rocky Horror Picture Show? - Keep feeding us 😊

Little Shop of Horrors! It was my first live show at the [Turner Centre](#) lastnight and Taimania's first ever.

[Kerikeri Theatre Company](#), what a primo night of entertainment from local legends! Thanks for having us and can't wait for the next.

 An absolute joy. A huge amount of work obviously went into this production. Stage, acting, costumes everything was a triumph. Made me proud to be a Kerikeri resident.

 We came on Friday night and were absolutely blown away. It was incredible. We know how much time, effort and work goes into these things and I take my hat off to everyone involved. It was magical!

There's something wild about going to the musical theatre, and having to remind yourself that a) you're in Kerikeri, and b) that stage is filled with your mates. Set design, accents, vocal delivery, on-stage chemistry; [@kerikeritheatrecompany](#) have delivered to a new level. [@keshanamita](#) you're a magical unicorn, Directing is your JAM! [@johnosaziac](#) you nailed the tone of Audrey II, how lucky are we to have your level of expertise just kicking around! [@harley\\_cavalry](#) I'm pretty sure those accents need to become a regular part of your BAU! [@petetheath.1](#) you were born for that role, my friend! Not a single flaw! [@ged\\_paul](#) you embodied the role of Seymour, and you created a character that has so many threads of your own, that he became you!
