

## Te Kaunihera o Tai Tokerau ki te Raki

## **AGENDA**

## Assurance, Risk and Finance Committee Meeting

## Wednesday, 31 August 2022

Time: 11:00 am

**Location:** Council Chamber

**Memorial Avenue** 

Kaikohe

#### Membership:

Chairperson John Vujcich
Deputy Chairperson Bruce Robertson
Mayor John Carter
Deputy Mayor Ann Court
Cr Mate Radich
Cr Rachel Smith
Cr Kelly Stratford
Cr Moko Tepania
Member Mike Edmonds
Member Adele Gardner
Reina Penney

| Far North  | Authorising Body    | Mayor/Council  |
|--|---------------------|--|
| District Council Te Kaunihera o Tai Tokerau ki te Raki | Status              | Standing Committee                                       |
| COUNCIL COMMITTEE                                      | Title               | Assurance, Risk and Finance Committee Terms of Reference |
|  | Approval Date       | 19 December 2019   |
|  | Responsible Officer | Chief Executive  |

#### **Purpose**

The purpose of the Assurance, Risk and Finance Committee (the Committee) is to assist and advise the Governing Body in discharging its responsibility and ownership of finance, risk and internal control.

The Committee will review the effectiveness of the following aspects:

- The robustness of financial management practices.
- The integrity and appropriateness of internal and external reports and accountability arrangements.
- The robustness of the risk management framework.
- The robustness of internal controls and the internal audit framework.
- Compliance with applicable laws, regulations, standards, and best practice guidelines.
- The establishment and maintenance of controls to safeguard the Council's financial and non-financial assets.
- Data governance framework

To perform his or her role effectively, each Committee member must develop and maintain

his or her skills and knowledge, including an understanding of the Committee's responsibilities, and of the Council's business, operations, and risks.

#### Membership

The Council will determine the membership of the Assurance, Risk and Finance Committee including at least one independent appointment with suitable financial and risk management knowledge and experience.

The Assurance, Risk and Finance Committee will comprise of at least five elected members (one of which will be the chairperson), and one independent appointed member.

Mayor Carter

John Vujcich – Chairperson

Bruce Robertson - Deputy Chairperson and Independent Member of the Committee

Moko Tepania

Mate Radich

Rachel Smith

Kelly Stratford

Ann Court

Mike Edmonds

Adele Gardner

Reina Penney

Non-appointed Councillors may attend meetings with speaking rights, but not voting rights.

#### Quorum

The quorum at a meeting of the Assurance, Risk and Finance Committee is 4 members.

#### **Frequency of Meetings**

The Assurance, Risk and Finance Committee shall meet every 6 weeks, but may be cancelled if there is no business.

#### **Power to Delegate**

The Assurance, Risk and Finance Committee may not delegate any of its responsibilities, duties or powers.

#### **Committees Responsibilities**

The Committees responsibilities are described below:

#### Financial systems and performance of the Council

- Review the Council's financial and non-financial performance against the Long-Term Plan and Annual Plan
- Review Council quarterly financial statements and draft Annual Report

#### Far North Holdings Limited (FNHL)

- Recommend to Council the approval of statement of intent and Annual Report (s67 LGA)
- Receive 6 monthly report on operations (s66 LGA)
- Receive quarterly financial statements
- Recommend appointment of directors of FNHL

#### **Risk Management**

- Review appropriateness of Council's risk management framework and associated procedures for effective risk identification, evaluation, and treatment
- Receive and review risk management dashboard reports
- Provide input, annually, into the setting of the risk management programme of work
- Receive updates on current litigation and legal liabilities

#### **Internal Audit and Controls**

- Review whether management has in place a current and comprehensive internal audit framework
- Receive and review the internal audit dashboard reports
- Provide input, annually, into the setting of the internal audit programme of work
- Review whether there are appropriate processes and systems in place to identify and investigate fraudulent behaviour

The Committee will manage Council's relationship with external auditor.

The Committee will approve applications to declare land abandoned and any other such matters under the Rating Act.

#### **Rules and Procedures**

Council's Standing Orders and Code of Conduct apply to all the committee's meetings.

#### **Annual reporting**

The Chair of the Committee will submit a written report to the Chief Executive on an annual basis. The review will summarise the activities of the Committee and how it has contributed to the Council's governance and strategic objectives. The Chief Executive will place the report on the next available agenda of the governing body.

#### **Far North District Council**

# Assurance, Risk and Finance Committee Meeting will be held in the Council Chamber, Memorial Avenue, Kaikohe on: Wednesday 31 August 2022 at 11:00 am

#### Te Paeroa Mahi / Order of Business

| 9 |        | pinga Hui / Meeting Close   |     |

#### 1 KARAKIA TIMATANGA – OPENING PRAYER

## 2 NGA WHAKAPĀHA ME NGĀ PĀNGA MEMA / APOLOGIES AND DECLARATIONS OF INTEREST

Members need to stand aside from decision-making when a conflict arises between their role as a Member of the Committee and any private or other external interest they might have. This note is provided as a reminder to Members to review the matters on the agenda and assess and identify where they may have a pecuniary or other conflict of interest, or where there may be a perception of a conflict of interest.

If a Member feels they do have a conflict of interest, they should publicly declare that at the start of the meeting or of the relevant item of business and refrain from participating in the discussion or voting on that item. If a Member thinks they may have a conflict of interest, they can seek advice from the Chief Executive Officer or the Team Leader Democracy Support (preferably before the meeting).

It is noted that while members can seek advice the final decision as to whether a conflict exists rests with the member.

#### 3 NGĀ TONO KŌRERO / DEPUTATION

No requests for deputations were received at the time of the Agenda going to print.

#### 4 CONFIRMATION OF PREVIOUS MINUTES

#### 4.1 CONFIRMATION OF PREVIOUS MINUTES

File Number: A3793199

Author: Joshna Panday, Democracy Advisor

Authoriser: Aisha Huriwai, Team Leader Democracy Services

#### **PURPOSE OF THE REPORT**

The minutes are attached to allow the Committee to confirm that the minutes are a true and correct record of previous meetings.

#### RECOMMENDATION

That the Assurance, Risk and Finance Committee confirms the minutes of the Assurance, Risk and Finance Committee meeting held 23 June 2022 as a true and correct record.

#### 1) BACKGROUND

Local Government Act 2002 Schedule 7 Section 28 states that a local authority must keep minutes of its proceedings. The minutes of these proceedings duly entered and authenticated as prescribed by a local authority are prima facie evidence of those meetings.

#### 2) DISCUSSION AND OPTIONS

The minutes of the meetings are attached.

Far North District Council Standing Orders Section 27.3 states that no discussion shall arise on the substance of the minutes in any succeeding meeting, except as to their correctness.

#### Reason for the recommendation

The reason for the recommendation is to confirm the minutes are a true and correct record of the previous meetings.

#### 3) FINANCIAL IMPLICATIONS AND BUDGETARY PROVISION

There are no financial implications or the need for budgetary provision as a result of this report.

#### **ATTACHMENTS**

1. 2022-06-23 Assurance, Risk and Finance Committee Minutes [A3763713] - A3763713 <u>↓</u>

#### **Compliance schedule:**

Full consideration has been given to the provisions of the Local Government Act 2002 S77 in relation to decision making, in particular:

- 1. A Local authority must, in the course of the decision-making process,
  - a) Seek to identify all reasonably practicable options for the achievement of the objective of a decision; and
  - b) Assess the options in terms of their advantages and disadvantages; and
  - c) If any of the options identified under paragraph (a) involves a significant decision in relation to land or a body of water, take into account the relationship of Māori and their culture and traditions with their ancestral land, water sites, waahi tapu, valued flora and fauna and other taonga.
- 2. This section is subject to Section 79 Compliance with procedures in relation to decisions.

| Compliance requirement  | Staff assessment   |  |  |  |  |
|---|--|--|--|--|--|
| State the level of significance (high or low) of the issue or proposal as determined by the <u>Council's Significance and Engagement Policy</u>   | This is a matter of low significance.  |  |  |  |  |
| State the relevant Council policies (external or internal), legislation, and/or community outcomes (as stated in the LTP) that relate to this decision.   | This report complies with the Local Government Act 2002 Schedule 7 Section 28.   |  |  |  |  |
| State whether this issue or proposal has a District wide relevance and, if not, the ways in which the appropriate Community Board's views have been sought.   | It is the responsibility of each meeting to confirm their minutes therefore the views of another meeting are not relevant.   |  |  |  |  |
| State the possible implications for Māori and how Māori have been provided with an opportunity to contribute to decision making if this decision is significant and relates to land and/or any body of water. | There are no implications for Māori in confirming minutes from a previous meeting. Any implications on Māori arising from matters included in meeting minutes should be considered as part of the relevant report. |  |  |  |  |
| Identify persons likely to be affected by or have an interest in the matter, and how you have given consideration to their views or preferences (for example, youth, the aged and those with disabilities).   | This report is asking for minutes to be confirmed as true and correct record, any interests that affect other people should be considered as part of the individual reports.                                       |  |  |  |  |
| State the financial implications and where budgetary provisions have been made to support this decision.  | There are no financial implications or the need for budgetary provision arising from this report.  |  |  |  |  |
| Chief Financial Officer review.   | The Chief Financial Officer has not reviewed this report.  |  |  |  |  |

23 June 2022

#### MINUTES OF FAR NORTH DISTRICT COUNCIL ASSURANCE, RISK AND FINANCE COMMITTEE MEETING HELD AT THE COUNCIL CHAMBER, MEMORIAL AVENUE, KAIKOHE ON THURSDAY, 23 JUNE 2022 AT 9:31AM

**CRS PRESENT:** Chairperson John Vujcich, Deputy Mayor Ann Court, Cr Rachel Smith, Cr

Kelly Stratford, Cr Moko Tepania, Member Mike Edmonds, Member Adele

Gardner

CRS ONLINE: Cr Mate Radich (left the meeting at 10:30am)

William J Taylor, MBE (General Manager Corporate Services), Dean Myburgh **GMS PRESENT:** 

(General Manager District Services),

**GMS ONLINE:** Andy Finch (General Manager Infrastructure and Asset Management),

STAFF PRESENT: Angie Thomas (Manager - Accounting Services), Sheryl Gavin (Manager -

Corporate Planning & Community Development), George Swanepoel (In-House Counsel), Lisa Huria (Manager - ICT Operations and Delivery), Jamie Dyhrberg (Chief Transformation and Technology Officer), Tania Heath (Project Administrator), Rob Cottrell (Business Architect), Rakesh Pinao (Asset

Investment Portfolio Manager), Marlema Baker (Democracy Advisor).

#### KARAKIA TIMATANGA – OPENING PRAYER

Chair John Vujcich commenced the meeting and Cr Stratford opened with a karakia.

#### NGĀ WHAKAPĀHA ME NGĀ PĀNGA MEMA / APOLOGIES AND 2 **DECLARATIONS OF INTEREST**

#### **APOLOGY**

#### **RESOLUTION 2022/1**

Moved: Cr Rachel Smith Seconded: Cr Kelly Stratford

That the apologies received from Deputy Chair Bruce Robertson for absence and Cr Mate Radich for early departure, be accepted and leave of absence granted.

**CARRIED** 

#### 3 NGĀ TONO KŌRERO / DEPUTATION

There were no deputations for this meeting.

#### **CONFIRMATION OF PREVIOUS MINUTES**

#### **CONFIRMATION OF PREVIOUS MINUTES**

Agenda item 4.1 document number A3703038, pages 12 - 17 refers

#### **RESOLUTION 2022/2**

Chairperson John Vujcich Moved:

Seconded: Cr Kelly Stratford

Page 1

23 June 2022

That the Assurance, Risk and Finance Committee confirms the minutes of the Assurance, Risk and Finance Committee meeting held 27 April 2022 as a true and correct record.

**CARRIED** 

#### 5 REPORTS

### 5.1 APPROVE ADDITION OF RESOURCE CONSENTS RISK TO ORGANISATION TOP RISK DASHBOARD

Agenda item 5.1 document number A3733521, pages 18 - 22 refers

#### **MOTION**

Moved: Cr Kelly Stratford Seconded: Cr Rachel Smith

That the Assurance, Risk and Finance Committee;

 a) approves the addition of the Resource Consents" risk onto the Organisational Top Risks Dashboard;

#### **AMENDMENT**

Moved: Deputy Mayor Ann Court

Seconded: Cr Rachel Smith

b) and that this matter be escalated to Local Government New Zealand and the Crown.

#### The amendment became the substantive motion.

#### **RESOLUTION 2022/3**

Moved: Deputy Mayor Ann Court

Seconded: Cr Rachel Smith

#### That the Assurance, Risk and Finance Committee;

- a) approves the addition of the Resource Consents" risk onto the Organisational Top Risks Dashboard;
- b) and that this matter be escalated to Local Government New Zealand and the Crown.

**CARRIED** 

NOTE: Elected Members request that all graphs/statistics included in the report be scaled for legibility.

Cr Radich left the meeting 10:30am

#### **6** INFORMATION REPORTS

#### 6.1 COUNCIL FINANCIAL REPORT FOR THE PERIOD ENDING 30 APRIL 2022

Agenda item 6.1 document number A3731211, pages 23 - 52 refers

#### **RESOLUTION 2022/4**

Moved: Cr Moko Tepania Seconded: Cr Kelly Stratford

That the Assurance, Risk and Finance Committee receive the report Council Financial Report for the Period Ending 30 April 2022.

#### 6.5 TAX GOVERNANCE FRAMEWORK AND POLICY

Agenda item 6.5 document number A3727308, pages 102 - 108 refers

#### **MOTION**

Moved: Deputy Mayor Ann Court

Seconded: Cr Rachel Smith

That the Assurance, Risk and Finance Committee receive the report Tax Governance Framework and Policy.

23 June 2022

#### **AMENDMENT**

Moved: Member Mike Edmonds Seconded: Cr Rachel Smith

That the Assurance, Risk and Finance Committee approve the report Tax Governance Framework

and Policy.

**CARRIED** 

The amendment became the substantive motion.

#### **RESOLUTION 2022/8**

Moved: Member Mike Edmonds Seconded: Cr Rachel Smith

That the Assurance, Risk and Finance Committee approve the report Tax Governance

Framework.

**CARRIED** 

### 6.6 ASSURANCE, RISK AND FINANCE COMMITTEE ACTION SHEET UPDATE FOR JUNE 2022

Agenda item 6.6 document number A3672062, pages 109 - 110 refers

#### **RESOLUTION 2022/9**

Moved: Chairperson John Vujcich

Seconded: Cr Rachel Smith

That the Assurance, Risk and Finance Committee receive the report Action Sheet Update

for June 2022.

**CARRIED** 

#### 7 TE WĀHANGA TŪMATATI / PUBLIC EXCLUDED

#### RESOLUTION TO EXCLUDE THE PUBLIC

#### **RESOLUTION 2022/10**

Moved: Chairperson John Vujcich

Seconded: Cr Rachel Smith

That the public be excluded from the following parts of the proceedings of this meeting.

The general subject matter of each matter to be considered while the public is excluded, the reason for passing this resolution in relation to each matter, and the specific grounds under section 48 of the Local Government Official Information and Meetings Act 1987 for the passing of this resolution are as follows:

| General subject of each matter to be considered | Reason for passing this resolution in relation to each matter   | Ground(s) under section 48 for the passing of this resolution  |
|---|---|--|
| 7.1 - Confirmation of Previous Minutes          | s7(2)(a) - the withholding of the information is necessary to protect the privacy of natural persons, including that of deceased natural persons s7(2)(h) - the withholding of the information is necessary to enable Council to carry out, | s48(1)(a)(i) - the public conduct<br>of the relevant part of the<br>proceedings of the meeting would<br>be likely to result in the disclosure<br>of information for which good<br>reason for withholding would<br>exist under section 6 or section 7 |

Page 4

23 June 2022

|   | without prejudice or<br>disadvantage, commercial<br>activities  |  |

| 7.2 - Technology Update<br>Report                                       | s7(2)(j) - the withholding of the information is necessary to prevent the disclosure or use of official information for improper gain or improper advantage | s48(1)(a)(i) - the public conduct<br>of the relevant part of the<br>proceedings of the meeting would<br>be likely to result in the disclosure<br>of information for which good<br>reason for withholding would<br>exist under section 6 or section 7 |
| 7.3 - FNDC Current Legal<br>Action Potential Liability<br>Claims Report | s7(2)(g) - the withholding of the information is necessary to maintain legal professional privilege   | s48(1)(a)(i) - the public conduct<br>of the relevant part of the<br>proceedings of the meeting would<br>be likely to result in the disclosure<br>of information for which good<br>reason for withholding would<br>exist under section 6 or section 7 |
| _   |   | CARRIED  |

Meeting adjourned for lunch 12:23 pm - 12:54 pm

The Assurance, Risk and Finance Committee confirms the information and decisions contained in the part of the meeting held with public excluded not be restated in public meeting.

#### 8 KARAKIA WHAKAMUTUNGA - CLOSING PRAYER

Cr Rachel Smith closed the meeting with a karakia

#### 9 TE KAPINGA HUI / MEETING CLOSE

The meeting closed at 1:29 pm.

The minutes of this meeting will be confirmed at the Assurance, Risk and Finance Committee Meeting held on 31 August 2022.

**CHAIRPERSON** 

Page 5

#### 5 REPORTS

#### 5.1 AFFORDABILITY RISK DECISION REPORT

File Number: A3787804

Author: Tanya Reid, Principal Advisor - Organisational Performance and

**Transformation** 

Authoriser: Janice Smith, Acting General Manager - Corporate Services

#### TAKE PÜRONGO / PURPOSE OF THE REPORT

1. To seek approval to accept the Affordability Risk Reference Group recommendation that our current risk position be categorised into four affordability risk themes.

#### WHAKARĀPOPOTO MATUA / EXECUTIVE SUMMARY

- 2. Council has recognised affordability as one of our top organisational risks as it poses significant risk:
  - Affordability is acknowledged as one of Far North's key challenges
  - Affordability is both complex and multi-faceted.
  - The Far North district has high levels of people on low and fixed incomes
  - FNDC has a strong reliance on property rates as a revenue generating mechanism
  - Risk Management is one of the key pillars to manage affordability
  - This report recommends separating the current affordability risk (ARF005) into four grouped under an affordability banner on the top organisational dashboard to maintain a whole of affordability risk view.
  - This supports a whole of Council view while allowing for an intentional strategic focus on treatments with clear outcomes and accountability.

#### **TŪTOHUNGA / RECOMMENDATION**

#### That the Assurance, Risk and Finance Committee:

- a) Remove ARF005 Affordability risk from the top organisational dashboard
- b) Adopt four affordability risks onto the top organisational risk dashboard. The four risks are:
  - i) ARF020 Ratepayer ability to pay
  - ii) ARF021 Provision of Services
  - iii) ARF022 Integrated planning
  - iv) ARF023 Form and function of Local Government
- c) Establishes regular risk progress reports, for each risk, to the Assurance, Risk and Finance Committee.
- d) Rescores risks and reports, at least annually, an affordability risk management overview to the Assurance, Risk and Finance Committee on the management and progress to treat the affordability risks.

#### 1) TĀHUHU KŌRERO / BACKGROUND

3. Affordability is acknowledged as one of Far North's key challenges. With a small rating base, diverse socio-economic factors and large distributed infrastructure base and service requirement, this will get worse over time without intervention.

- 4. FNDC has a strong reliance on property rates as a revenue generating mechanism, and this may create some affordability issues particularly for households with low or fixed incomes or high property values. As a district with high levels of low and fixed incomes there are issues regarding affordability. Changes to local government (including climate change, three waters, and local government reform) and to the community we serve (demographics, climate change) will have implications on affordability. Affordability in the context of rates has two aspects:
  - The cost relative to income (and wealth to the extent that wealth can be converted into income)
  - The ability of ratepayers to earn greater income in the future from the spending of the rates,
     e.g. investment in infrastructure that will allow an individual to earn higher incomes in the future.
- 5. Sustainability can be defined as the ability to meet present needs without compromising the needs of future generations. Sustainability represents an extended definition of affordability in the sense that sustainability introduces a longer timeframe in which the issues of fairness and risk must be considered.
- 6. Affordability is a complex and multi-faceted risk requiring a whole of Council view.

Council's current affordability risk statement

7. In November 2018 the Assurance, Risk and Finance Committee drafted and scored their top organisational risks. These were adopted by Council in May 2019. Since adoption onto the top organisational risk dashboard this risk, described as ARF005 Affordability risk has been subject to a number of deep dives and risk progress reports.

The current risk statement, and risk scoring, is articulated in table 1 below:

Table 1: ARF005 Affordability risk statement and risk scoring.

| Risk<br>Score   | Risk description  | Impacts  | Treatments   |
|---|---|--|--|
| Inherent<br>risk<br>score=45<br>Residual<br>score =<br>26 | Delivery of Services Risk (Affordability)  • Economic development  • Economic delivery (affordability)  • Alignment of financial & regional strategies  • Current and future cost picture | <ul> <li>Financial and remediation costs (large assets / services)</li> <li>Future cost forecasting including climate change modelling</li> <li>Rating implications</li> <li>Affordability pressures</li> <li>Political &amp; reputational pressure</li> </ul> | <ul> <li>Cost Blueprinting – big picture</li> <li>Revenue Review</li> <li>Cost and revenue forecasting (in addition to LTP budgeting)</li> <li>Review financial processes and models (e.g. depreciation)</li> <li>Existing &amp; additional revenue streams investigated</li> <li>Scale back discretionary projects / focus on priorities</li> </ul> |

#### 2) MATAPAKI ME NGĀ KŌWHIRINGA / DISCUSSION AND OPTIONS

The Far North District has a number of attributes which affect affordability. Firstly, who we are:

- We are a growing district of 72,600 with a high level of deprivation (the illustration below, from StatsNZ, details our socioeconomic deprivation profile by mesh area) and a high number of over 65's.
- We are a district lacking public transport distance, affordability and connectivity are all barriers.
- With 50.5% Māori descent we have a very different ethnic composition compared to the national population:

- We are the 13th largest Council by area
- · We do not have a large central hub
- We are one of seven Councils (Mackenzie, Clutha, Central Otago, Hurunui and Westland) with no townships with greater than 6,500 population.

Using the 2018 census data Council commissioned Business and Economic Research Limited (BERL) to conduct data analysis of rates affordability across the Far North District and prepare a report outlining rates affordability issues.

Concerns about the impact of rates increases on low-income households led to the establishment of The Local Government Rates Inquiry (the Inquiry) in 2007. The resulting report, known as the Shand Report after the Chair David Shand, concluded that rates affordability was the ability to pay rates without serious economic difficulty. The inquiry noted that in 2004, the average rates paid by households represented 2.51 percent for all groups and although there are likely to be pockets of affordability in all types of household, they did not consider rates affordability was a problem for the average household. As an approximate benchmark, affordability concerns will arise where rates exceed five percent of gross household income.

The report also suggested that particular household types will demonstrate rates affordability issues:

- Households in the lowest 40 percent of incomes
- One parent households with children
- One person households
- Households whose principal source of income is New Zealand Superannuation.

These households predominantly have low or fixed incomes. Consequently, BERL used the affordability benchmarks of:

 Rates as a percentage of gross household income, where affordability issues are likely to arise when rates exceed five percent.

BERL found that within the Far North District there were a significant number of households with rates affordability issues in the Far North District. These were:

- Single superannuitant with no other income
- Married superannuitants with no other income
- Single adult with two children in receipt of Sole Parent Support households.

These households had rates in excess of five percent of gross household income across lower, median and high quartile total rates levels. A fuller view of household rates affordability by household type / income level is provided in table 2 below.

Table 2: total rates as a percentage of gross income by household type. Far North District

| Household type                          |                | FNDC rates (%) | NRC rates (%) | Total rates (%) |
|---|----------------|----------------|---------------|-----------------|
|   | Lower Quartile | 7.4            | 1.1           | 8.5             |
| Single superannuitant, no other income  | Median         | 9.0            | 1.2           | 10.2            |
|   | Upper Quartile | 11.0           | 1.0           | 12.1            |
|   | Lower Quartile | 4.9            | 0.7           | 5.6             |
| Married superannuitant, no other income | Median         | 5.9            | 0.8           | 6.7             |

Nationally and internationally economies are feeling the effects of the COVID pandemic, war and climate change. Table three is a bow tie type analysis identifying current external environment influences which are impacting affordability within the Far North.

Table 3: Bow tie analysis current economic issues and consequences.

| Cause   |               |   | Consequence  |
|---|---------------|---|--|
| >3% inflation (both tradeable and non-tradeable)  |               |   | Rising prices have reduced the real purchasing power of households |
| Down graded growth forecasts  | _             |   | Nominal wages growth   |
| The labour market is forecast to remain tight in the near term, with the unemployment rate decreasing to 3.0% |               |   | Tax revenues remain strong   |
| Economic implications of Russian invasion of the Ukraine  |               |   | Rising oil and other commodity prices                              |
| Impact of COVID-19 pandemic e.g. Orange setting expected to reduce economic activity by 0-2%                  |               |   | Continued supply disruptions                                       |
| Resilient domestic demand   | Affordability | - | Interest rate rise to reign in economy                             |
| Export prices rose significantly, particularly dairy and meat prices which reached record highs               | Risk          | - | Trade deficit narrows  |
| Ongoing price pressure from a strong construction sector  |               |   | Ongoing price pressure from a strong construction sector           |
| New Zealand's international border restrictions eased   |               |   | Tourism recovery   |
| Economic activity in our major trading partners is forecast to grow by 3.7%                                   |               |   |  |
|   |               |   |  |
|   |               |   |  |

8. A root cause strategic analysis separated the affordability risk into four clear themes. These themes were workshopped by the Affordability Risk Reference group to provide strawman risk statements then further workshopped with the Assurance, Risk and Finance Committee. These statements are captured in table four. Risk and Finance Committee agreed and scored the inherent risk for the four strategically themed affordability risk statements.

Table 4: Affordability Risk statements

| Cause  | Risk  | Effect  |  |
|--|---|---|--|
| (Because of)   | (there is a chance that)  | (leading to)  |  |
| a) Ratepayer ability to pay b) We are a district of high deprivation, geographically dispersed small communities with no major hub and no public transport. We are an economically challenged district with limited employment opportunities and a significant number of households with low or fixed incomes. c) Berl's rule of thumb: *rates as a % of gross household income, where affordability issues are likely to arise when rates exceed 5% d) *Rates = cost of essential and social infrastructure and services usually provided by Territorial Authorities. | That Territorial Authorities income requirement, to fund essential and social   | If ratepayers' default on their rates payment Council will not have the cashflow to continue operations without borrowing or taking some other actions such as reprioritising service delivery and reviewing the user pays components of current fees and charges.  |  |
| e) Provision of Services f) We are a district of multiple small scale service schemes (with small number of ratepayers covering the costs of these schemes) with aged infrastructure. We are also experiencing the effects of higher engineering and quality standards, other entities committing Council to ongoing maintenance of new assets and increasing costs to manage / adapt to the effects of climate change.  | There is a chance that we cannot continue the expected provision of service to our communities into the future at an affordable level.  | Not being able to deliver or provide new assets / amenities / facilities at an acceptable level of service which sustain and promote community wellbeing and resilience.  We may also not be legally compliant (statutory services) or be able to continue offering the range of services currently being provided. |  |
| g) Integrated planning h) As a Council, district, region, and interagency, we are not connected or resourced to plan for the future in a coherent and integrated manner.   | This leads to short term and/or adhoc decisions on development and protection of the district (and region), missed opportunities and communities that feel vulnerable and undeveloped.    | This leaves us unable to put the right strategies/plans in place and operate from a holistic perspective, i.e. building places rather than individual assets.  We are not prioritising the best use of limited resources achieving sub-optimal outcomes   |  |
| i) Form and function of Local Government j) The form and function of local Government is changing (and will continue to be subjected to reforms and changes), but this Council still only has rates and user pays charges as its core revenue source. There is a lack of certainty around Central Govt's willingness to provide funding as part of current and future devolved responsibilities at local govt. level. Additionally, our processes (10 year long term plan) do not align with the government cycle e.g. Waka Kotahi                                     | There is a chance that we do not have the long-term operational funding and resources to support the mandate; and that Council does not have the instruments to implement policy changes. | We end up in a position where we are forced to take action using existing resources, impeding the delivery of our current workload. And we do not meet the expectations set by central government causing damage to Council reputation  Example climate change.   |  |

#### Scoring of affordability risks

9. The Assurance, Risk and Finance Committee scored the inherent risk. The risks were scored by identifying both the risk impact for five organisational areas (see table five) and the likelihood of the risk occurring (see table six). For each organisational area, the risk impact is given a score of "High to Intolerable", "Medium" or "Low to None" and the likelihood is rated as either "Will happen", "Probable" or "Unlikely". The impact and likelihood matrix is used to determine the values for each affordability risk (see table seven). The likelihood of all four risks materialising is assessed as "will happen".

Table 5: Description of risk impact for each organisation area

| k)<br>area | Organisation      | l) Description  |  |
|------------|-------------------|---|--|
| m)         | Financial         | n) Impact on Budget, Department or Team; and /or Impact on annual Council budget                                      |  |
| o)         | Customer          | p) Financial impact to customer due to loss of a provision of essential service, or essential piece of infrastructure |  |
| q)         | Reputational      | r) The impact on FNDC's reputation  |  |
| s)         | Compliance/Legal  | t) The legal impact on FNDC's legal adherence / regulatory compliance   |  |
| u)         | Health and Safety | v) The impact to people(s) health & safety arising from FNDC operations or a situation where FNDC are liable          |  |

Table 6: Description of likelihood

| w)  | Likelihood  | x) Description   |
|-----|-------------|--|
| y)  | Will happen | <ul> <li>z) The risk is likely to occur.</li> <li>aa) There is frequent exposure to the risk.</li> <li>bb) There are external influences that make managing this risk ineffective.</li> </ul>                          |
| cc) | Probable    | <ul> <li>dd) The risk will possibly occur e.g. once in every 2 year event</li> <li>ee) There is an exposure to the risk.</li> <li>ff) There are external influences that make managing this risk difficult.</li> </ul> |
| gg) | Unlikely    | hh) The risk is unlikely to occur e.g. once in every 10 year event There is a low exposure to the risk.  |

Table 7: Impact and likelihood matrix

|        |                     | Likelihood (probability) |          |             |  |  |  |  |
|--------|---------------------|--------------------------|----------|-------------|--|--|--|--|
|        |                     | Unlikely                 | Probable | Will Happen |  |  |  |  |
|        | High to Intolerable | 5                        | 7        | 9           |  |  |  |  |
| Impact | Medium              | 3                        | 5        | 7           |  |  |  |  |
|        | Low to None         | 1                        | 3        | 5           |  |  |  |  |

jj) An inherent risk score has been estimated for each affordability risk. This was derived by summing the risk value for each organisational area (see table eight).

Table 8: Inherent risk score for each affordability risk (inc. organisational area score and overall score)

| kk) <b>Risk</b>                    | Organisational area  | mm) Impact   | nn) <b>Likelihood</b>  | oo) Inherent risk score |

#### Responsibilities

jjjjj) All four affordability risks remain classified as both organisational and strategic risks with the GM-SPP responsible for risk governance. All affordability risks will be subject to regular risk

progress reports. The risks have been recorded on the Organisational Risk Register to enable management at a Group level.

Table 9: Affordability risk summary.

| Risk ID: | Risk title                                   | Risk Level     | Risk description | Inherent risk score | Residual risk<br>score | Accountable<br>Risk Governance | Responsible<br>Risk Governance | Risk Progress<br>Report<br>schedule |

Each of the affordability risks are high-intolerable and will happen. The risks will be clustered on the organisational risk dashboard under the heading "affordability".

Connecting up the Council affordability risk treatment response:

The terms of reference for the Affordability Risk Reference Group were signed off in February 2022. The purpose of the Affordability Risk Reference Group is to support the provision of a "joined up connected" response. The objective of the Affordability Risk Reference group is to support the organisation through the provision of:

- Advice and guidance
- Explore opportunities within Council
- Inform specific elements of proposed work
- To champion the work impacting Affordability
- Build an organisational network
- To support risks three lines of defence through systems of control (help to monitor the risk and ensure right resources are allocated) and governance (effectively manage escalation of the risk and define strategies to manage).

#### Take Tūtohunga / Reason for the recommendation

The Affordability Risk Reference Group has recommended:

- a) ARF005 Affordability risk is removed from the top organisational dashboard this is because we propose to replace it with the recommendation in "b" below
- b) To enable greater clarity and ability to align work programmes and approaches, it is recommended that the four affordability risks are adopted onto the top organisational risk dashboard. The four risks are identified as:

```
ooooo) ARF020 Ratepayer ability to pay
```

ppppp) ARF021 Provision of Services

qqqqq) ARF022 Integrated planning

rrrrr) ARF023 Form and function of Local Government

- c) To ensure that the affordability risk is managed effectively it is recommended that each risk is subject to a regular risk progress report to the Assurance, Risk and Finance Committee
- d) To enable FNDC to track risk and risk management measure it is recommended that at least annually there is a affordability risk progress report which provides an overview to the Assurance, Risk and Finance Committee on the management and progress to treat affordability risks
- e) Recognising the dynamic nature of environment affecting affordability, it is recommended that these risks are regularly rescored due to the evolving environment including the government's reform programmes and regulatory changes.

## 3) PĀNGA PŪTEA ME NGĀ WĀHANGA TAHUA / FINANCIAL IMPLICATIONS AND BUDGETARY PROVISION

There is no budgetary provision required.

#### **ĀPITIHANGA / ATTACHMENTS**

Nil

#### Hōtaka Take Ōkawa / Compliance Schedule:

Full consideration has been given to the provisions of the Local Government Act 2002 S77 in relation to decision making, in particular:

- 1. A Local authority must, in the course of the decision-making process,
  - a) Seek to identify all reasonably practicable options for the achievement of the objective of a decision; and
  - b) Assess the options in terms of their advantages and disadvantages; and
  - c) If any of the options identified under paragraph (a) involves a significant decision in relation to land or a body of water, take into account the relationship of Māori and their culture and traditions with their ancestral land, water sites, waahi tapu, valued flora and fauna and other taonga.
- 2. This section is subject to Section 79 Compliance with procedures in relation to decisions.

| State the level of significance (high or low) of the issue or proposal as determined by the Council's Significance and Engagement Policy  | The recommendation in this report does not meet the thresholds as per the Council's significance and engagement policy.  |
| State the relevant Council policies (external or internal), legislation, and/or community outcomes (as stated in the LTP) that relate to this decision.   | Risk Management Policy   |
| State whether this issue or proposal has a District wide relevance and, if not, the ways in which the appropriate Community Board's views have been sought.   | None   |
| State the possible implications for Māori and how Māori have been provided with an opportunity to contribute to decision making if this decision is significant and relates to land and/or any body of water. | While the recommendation in this report does not have any direct implications for Maori, given the disparity in income levels between communities, affordability will be particularly challenging. |
| State the possible implications and how this report aligns with Te Tiriti o Waitangi / The Treaty of Waitangi.  |  |
| Identify persons likely to be affected by or have an interest in the matter, and how you have given consideration to their views or preferences (for example – youth, the aged and those with disabilities).  | There are no affected or interested parties to the recommendation.   |
| State the financial implications and where budgetary provisions have been made to support this decision.  | There is no financial implication or request for budgetary provision.  |
| Chief Financial Officer review.   | The Chief Financial Officer has reviewed this report.  |

#### 6 INFORMATION REPORTS

#### 6.1 REVENUE RECOVERY REPORT 30 JUNE 2022

File Number: A3787760

Author: Margriet Veenstra, Manager - Transaction Services

Authoriser: Janice Smith, Acting General Manager - Corporate Services

#### TAKE PŪRONGO / PURPOSE OF THE REPORT

The purpose of this report is to provide quarterly reporting to the Far North District Council Assurance, Risk, and Finance Committee.

#### WHAKARĀPOPOTO MATUA / EXECUTIVE SUMMARY

This is the final report for the financial year 2021-22 and provides information on action taken to collect the current and arrears balances for rates, water and sundry debt so far this year, and to provide information on how collection is tracking against targets.

#### **TŪTOHUNGA / RECOMMENDATION**

That the Assurance, Risk and Finance Committee receive the report Revenue recovery report 30 June 2022.

#### TĀHUHU KŌRERO / BACKGROUND

This document has been prepared to outline current and arrears balances for rates, water and Sundry debt as of 30 June 2022 and the actions taken by the debt management team for the collection of the General Title rates and water, and sundry debt.

This information is part of the standing items reported to the Committee on a regular basis.

#### MATAPAKI ME NGĀ KŌWHIRINGA / DISCUSSION AND NEXT STEPS

#### **BACKGROUND**

This document has been prepared to outline current and arrears balances for rates, water and Sundry debt as of 30 June 2022 and the actions taken by the debt management team for the collection of the General Title rates and water, and sundry debt.

This information is part of the standing items reported to the Committee on a regular basis.

#### **DISCUSSION AND NEXT STEPS**

The data provided is for General Title and Maori Freehold Land rates and water accounts with sundry debtors shown in a separate table. Since the 1<sup>st</sup> of July 2021, the General Title rates total arrears balance has been reduced by 40% and water rates by 45%.

#### General Title rates and water debt

Key actions since the last report:

- Revenue recovery team were unable to proceed with final mortgage demand due to staff shortages. Where possible, contact was made with owners and payment plans offered to avoid mortgage demand in the new year.
- Instructions sent to legal services team to commence applications to the courts for financial assessment for properties where judgment was received but no payments have been made.

#### Next actions:

- Complete reporting for all properties with mortgages and commence pre-mortgage demand calling.
- Prepare and issue mortgage demand to the 5 major banks after the 1<sup>st</sup> of August 2022 once pre-mortgage demand has been completed.
- Review properties without a mortgage and high arrears and commence demand process in collaboration with Council's Legal Services team.

For the total number of General Title rates accounts marked as 'Debt recovery action to commence':

- These are properties where there is no mortgage, and we do not have a payment arrangement or direct debit set up on the account.
- 32% of properties only have last year's rates in arrears and 13% have 2 years of arrears. Debt management will be contacting these owners by phone, email, or letter. Any water arrears will be picked up at the same time.
- 55% of these accounts have arrears of 3 or more rating years. Debt management will start the final demand process for these which can result in referral to Council's legal services team to commence legal proceedings.

#### Maori Freehold Land rates and water debt

The debt for Maori Freehold land has reduced since the write-offs were completed in June as per the Local Government (Rating of Whenua Maori) Amendment Act 2021. The rates debt has reduced by 11.54% since the start of the year which was mainly due to write-off's for non-rateable properties and statute barred write off.

#### **Sundry debtors debt**

The total sundry debtors aged debt balance has increased since the start of the year. However, two payments from the Ministry of Business, Innovation and Employment, totalling \$2,070,000 were received after financial year end.

The 90 day+ resource consent debt has reduced by \$77,774 since the last report, and the building consent debt has increased by \$10,908. The revenue recovery team continue to work with both teams to reduce this. The 30-to-60-day debt has seen an increase and we are in the process of completing analysis to understand what is driving this increase.

## PĀNGA PŪTEA ME NGĀ WĀHANGA TAHUA / FINANCIAL IMPLICATIONS AND BUDGETARY PROVISION

Provision is made annually for doubtful debts in relation to the arrears owed to council. A higher provision for Maori Freehold land rates and water is made in comparison to General Title rates and water due to the difference in collection options available to Council.

## Rates EasyPay direct debits

#### Pay rates the easy way

#### **Benefits**

Spread rates payments to suit you. Pay weekly, fortnightly, monthly, annually or on the instalment due date — it's up to you.

\*Never forget to pay

\*Never get charged late payment penalties

\*Never get charged card fees

\*No need to visit a Council service centre

\*No need to carry large sums of cash.

#### How does it work?

Join Rates EasyPay and we send you a letter confirming your start date and payment frequency.

Rates are automatically paid from your bank account and a schedule of future payments is included on assessment notices.

You control your payments and can change the frequency or cancel Rates EasyPay at any time.

Any changes to rates are calculated automatically — you don't have to visit the bank to make a change.\*

#### Apply now

Fill in a direct debit form and return with a bank account deposit slip or statement header showing bank account details. Go to our Rates pages on the FNDC website www.fndc.govt.nz to download the form.

\*Our variable direct debit facility recalculates in July when rates are generated and automatically adjusts your payments.

HE ARA TĀMATA CREATING GREAT PLACES Supporting our people

#### 6.2 PEOPLE AND CAPABILITY QUARTERLY UPDATE: 1 APRIL - 30 JUNE 2022

File Number: A3834250

Author: Mia Haywood, People and Capability Data and Systems Specialist

Authoriser: Jill Coyle, Chief People Officer

#### TAKE PÜRONGO / PURPOSE OF THE REPORT

The purpose of this report is to present the Audit, Risk and Finance Committee with the quarterly update for People and Capability.

#### WHAKARĀPOPOTO MATUA / EXECUTIVE SUMMARY

Included in the report is information on:

- Staff Turnover.
- Exit Interviews and Analysis.
- Personal Grievances; and
- Disciplinary Actions and Costs.

#### **TŪTOHUNGA / RECOMMENDATION**

That the Assurance, Risk and Finance Committee receive the report People and Capability Quarterly Update: 1 April - 30 June 2022.

#### TĀHUHU KŌRERO / BACKGROUND

This report will be presented to the Audit, Risk and Finance Committee on a quarterly basis.

#### MATAPAKI ME NGĀ KŌWHIRINGA / DISCUSSION AND NEXT STEPS

This report is Information only.

#### **ĀPITIHANGA / ATTACHMENTS**

1. People Capability Report 1 April - 30 June 2022 - A3834210 🗓 🖺

People and Capability Report to Assurance, Risk and Finance Committee Period 1 April – 30 June 2022

#### **Staff Turnover**

During quarter four, ten staff left Far North District Council. This has resulted in a quarterly turnover rate of 2.54%. Our 2021-2022 turnover rate was 15.74%, comprised of 62 staff having left Far North District Council. This turnover rate is 0.79% higher than the previous financial year's turnover rate of 14.95%.

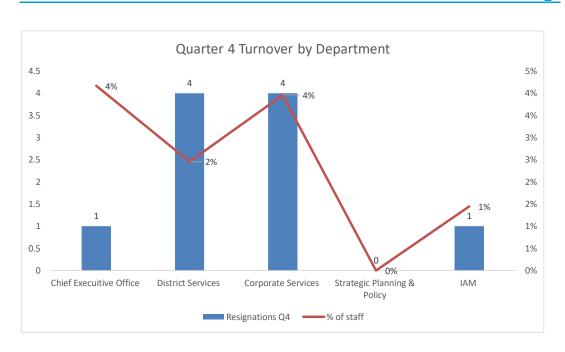

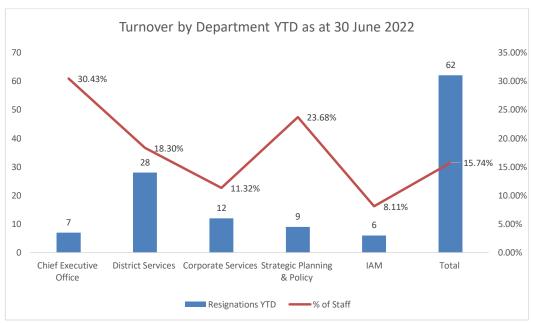

District Services team has seen four staff members leave this quarter. These resignations have come from different areas within District Services, with one from each Building Services, Resource Consents, Administration Environmental Services and the Visitor Information Services teams.

The Infrastructure and Asset Management Team has seen one staff member leave from the Facilities Operations Team.

Corporate Services had four team members leave this quarter. This was made up of one resignation from the Transformation & assurance team, two from the digital information team and one from the Legal Services team

Chief Executive Office has had one resignation from the People & Capability Team.

#### **Exit Interviews and Analysis**

The total number of survey responses for this financial year was twenty-eight. We are now seeing an uptake in staff completing the exit surveys as part of our re-engineered process. This makes it easier for staff to fill out the survey by redirecting them to the exit survey after they submitted their exit form.

This is providing us with valuable information on why staff are choosing to leave and is highlighting areas where we need to direct attention to.

By using the survey data, the following findings have been identified:

Top reasons to leave FNDC;

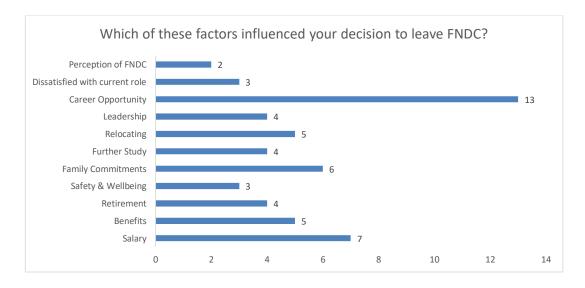

- Career Opportunity
- Salary
- Family Commitments

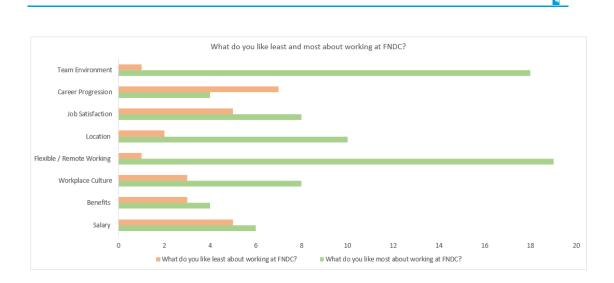

What staff liked most about working at FNDC:

- Flexible/Remote Working
- Team Environment
- Location

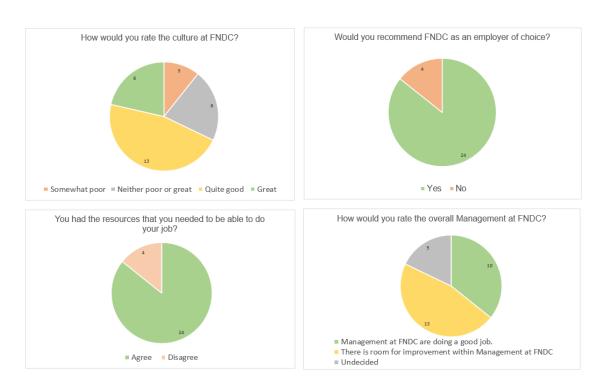

What staff liked least about working at FNDC:

- Career Progression
- Salary
- Job Satisfaction

It is pleasing to note that 86% of our survey responders recommend FNDC as an employer of choice, along with this 68% of survey responders rating FNDC's culture to be "quite good" or "great".

5

#### **Personal Grievances**

There have been no personal grievances for this quarter.

### **Retention and Recruitment Issues**

As same as quarter three we are still having continuous issues around gaining suitable talent, resulting in re-advertising roles specifically Infrastructure Planners, the Resource Consents Team and the Building Team. It is extremely evident that we share the nationwide struggle to fill roles in these areas. People & Capability are using premium advertising to include "Award winning hybrid remote working". We are also liaising with both SEEK NZ and Linked In to potentially use their premium offerings to engage with future talent. Further advertising is now being undertaken nationally with the Ministry of Social Development, as well as being targeted locally in Kerikeri, Kaikohe and Kaitaia with the assistance of MSD's job matching team.

### **Stay Interviews**

Stay Interviews were carried out with the Resource Consents team during June and July 2022 with thirteen interviews conducted. The interviews lasted approximately 30 minutes with a standardised template for that department used for questions and answers. Each individual was met with either inperson or via Teams and asked if they were comfortable for their feedback to be shared.

All team members appreciated the opportunity to talk and honestly expressed their opinions. Feedback indicated a positive workplace culture, with supportive leadership and management of the Resource Consents department. Challenging areas were discussed together with suggested improvements from staff. The interviews involved discussions about flight risks, employee drivers and career aspirations which can be linked to learning and development plans. Suggestions for management consideration include processing improvements to better manage the backlog for overdue applications, as well as administrative enhancements.

The Resource Consents department have seen career progression during 2022, whereby internal promotions have resulted in a new Team Leader, Senior Planner and Duty Planner. A further two external Planners and a Graduate Resource Engineer have also been employed during this time. With the new financial year, the leadership team will have ongoing discussions for career aspirations with team members to build capability. The People & Capability team are continuing to support the department with their succession planning process.

Due to upcoming legislative changes with the Resource Management Act, management is also giving further consideration to the structure of the department, to ensure that this is fit for purpose for current and future needs. Stay Interviews have enabled insights into thoughts to the structure, with feedback suggesting a Resource Consents Manager, an additional Principal Planner and aligned administrative support would be beneficial to the department.

# **Disciplinary Actions and Costs**

During this period there has been one Performance Improvement Plan in place. Two formal disciplinary processes occurred and have been resolved.

### 6.3 AUGUST 2022 RISK MANAGEMENT REPORT

File Number: A3834819

Author: Tanya Reid, Principal Advisor - Organisational Performance and

**Transformation** 

Authoriser: Janice Smith, Acting General Manager - Corporate Services

# TAKE PÜRONGO / PURPOSE OF THE REPORT

To provide an information report on:

- top organisational risk dashboard and report schedule
- emergent risk
- scheduled risk progress reports for the organisation's top risks
- organisational risk update; and
- business continuity planning.

No decision is required.

# WHAKARĀPOPOTO MATUA / EXECUTIVE SUMMARY

Risk progress updates are provided for eight of the nine scheduled top organisational risks reports including the first risk progress report for ARF019 Resource consents. The risk trend is stable for five of these risks and increasing for four.

As we continue to operate in dynamic environment a high-level national and international environmental scan is provided.

An emergent risk has been identified for inclusion in this report.

Two additional reports are included on the Assurance, Risk and Finance Committee 31 August 2022 agenda:

- a decision report seeking approval to accept the Affordability Risk Reference Group recommendation that our current risk position be categorised into four affordability risk themes; and
- an information report on the impact of three waters reform on organisational risk management and potential emergent risks.

# **TŪTOHUNGA / Recommendation**

THAT THE ASSURANCE, RISK AND FINANCE COMMITTEE RECEIVE THE REPORT AUGUST 2022 RISK MANAGEMENT REPORT.

# TĀHUHU KŌRERO / BACKGROUND

The top organisational risks are risks that may impact on Council achieving its vision, mission and community outcomes and are regularly reported to the Assurance, Risk and Finance Committee to ensure they are being appropriately managed. The top organisational risks are owned by the CEO. A number of these risks are subject to external influences which may affect effective council operations.

Table 1 provides a risk snapshot of the Assurance, Risk and Finance Committee Organisational Risk Dashboard with inherent and residual risk scores as accepted by this Committee, and the risk trend as assessed by the risk subject matter experts. The risk trend is increasing for eight of the 13 top organisational risks and is stable for the remaining five risks. These risks are

categorised into three themes – Climate Change, Enterprise Governance and Infrastructure and Asset Management Risks.

Table 2 provides details of the 2022 risk progress report schedule, as agreed by Assurance, Risk and Finance Committee. The schedule has synchronised risk progress reports to enable the Assurance, Risk and Finance Committee to collectively review reports on interconnected risks.

Table 1: Top organisational risk dashboard

| Risk ID:  | Risk title  | Date Risk<br>adopted | Inherent<br>risk<br>score | Residual<br>risk<br>score | The risk<br>trend is: | Months since risk trend last changed: | High level risk treatment progress:  |

### **DISCUSSION AND NEXT STEPS**

# We are operating in a very dynamic context

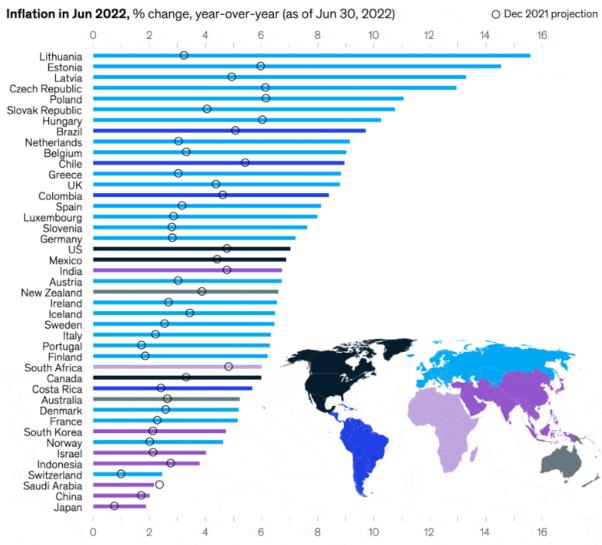

### **National trends**

- Employment remains above its maximum sustainable level
- Employers are experiencing a significant shortage of candidates across all industry sectors, and organisations
- Domestic spending remains supported by high employment levels, resilient household balance sheets in aggregate, continued fiscal support, and strong terms of trade
- Labour and resource scarcity are contributing to upward price pressures which are currently exacerbated by seasonal illness, a resurgence in COVID-19 cases, and a net outflow of labour abroad
- The level of global economic activity, combined with the ongoing supply disruptions largely driven by both COVID-19 persistence and the Russian invasion of Ukraine, continue to generate global inflation pressures
- The Monetary Policy Committee (13/07/2022) agreed to continue to lift the OCR to a
  level where it is confident consumer price inflation will settle within the target range. The
  Committee is comfortable that the projected path of the OCR outlined in the May
  Monetary Policy Statement remains broadly consistent with achieving its primary
  inflation and employment objectives without causing unnecessary instability in output,
  interest rates and the exchange rate.

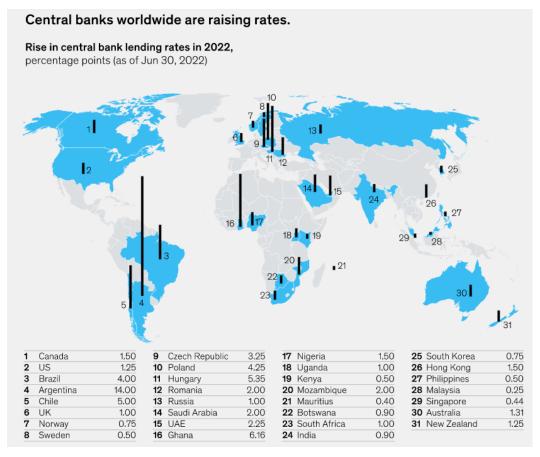

# Global economy trends

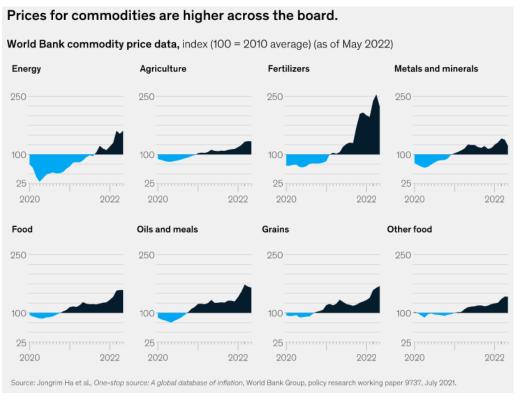

Inflation has altered the economic mood, and potentially reset the path of global and national economies worldwide for years to come. In the past six months, inflation has far exceeded December 2021 expectations. In many countries, actual rates have doubled projections (illustration one). In response to inflation's alarming rise, central banks worldwide are raising their core bank lending rates (illustration two). So far, however, rate raises in most countries have not matched the pace of inflation. Rising rates are expected to ease demand and lower prices for two critical components of headline inflation: housing and commodities such as energy and metals. As economic stimulus reflated the global economy that had been punctured by the COVID-19 pandemic, prices took off (illustration three). Then Russia's invasion sent prices higher still. The biggest rise was in fertilizers. Spurred by shortages of natural gas, a key component in making fertilizer, and by rising demand from farmers, fertilizer prices have risen sharply.

# Inflation in many countries has more than doubled projections in the past six months.

Note: The boundaries and names shown on this map do not imply official endorsement or acceptance by McKinsey & Company. Source: OECD

# **Emergent risk:**

Increasing probability that one current risk may materialise:

Change management is a structured approach to implementing change in an organization, a systematic approach to dealing with changes to goals, processes and technologies. District Services have identified this as a regulatory/compliance risk (DS018) - Because of change management practice (or lack of); there is a chance that inconsistent processing and service level; leading to not meeting statutory requirements, creating legal liabilities and reputational damage. It is probable that we are now seeing this risk materialise. District facilities have also identified an operational/financial risk (DS023) focussed on the lack of an organisation-wide imbedded compliance information flow.

#### The issue:

Historically, FNDC has issued one or more resource consents with a specific consent condition which required the developer to design, supply and install a reticulated wastewater system on the basis that the area of the subdivision was designated as a 'future area of benefit' for sewer connections.

It has been alleged that, where FNDC has not provided the wastewater connection, FNDC is considered to be in breach of our obligations to facilitate connecting the development. These allegations have been accompanied by requests to re-imburse the cost of the required wastewater reticulated system inclusive of interest on that investment.

At this stage it is unclear how many resource consents may have been issued with the above mentioned conditions and work is underway to understand the scale and extent of any associated risks

It is also important to note that when testing the liability balance related to resource management deposits, in 2018, Audit NZ found that some of the deposits in the listing were received 18 years ago. A project has been underway to identify these bonds, and to then confirm resource consent conditions have been met, to enable bonds to be returned. There are 11 instances where remedial work needs to be completed. Six of these are roading issues and are with the NTA to confirm work required; two are waiting for assessment from engineers; two are with District Facilities Operations to remediate; and one remains to be actioned.

Table 3 captures previously identified emergent risks. One additional emergent risk, identified 21/06/2022 and verbally advised to the Assurance, Risk and Finance Committee at the June 2022 meeting, has been included in the table below as item number six.

Table 3: Table of identified emergent risk

| EN | ERGENT RISKS  | PRESENTED<br>TO  | PROGRESS   |
|----|---|------------------|--|
|    |   | ARF:             |  |
|    | THE RISK OF EXTERNALLY FUNDED SHOVEL READY, ECONOMIC STIMULUS EMPLOYMENT OPPORTUNITY PROJECTS DUE TO THE IMPACT OF THE COVID-19 PANDEMIC.   | OCTOBER<br>2020  | THE ASSURANCE, RISK AND FINANCE COMMITTEE RECEIVED A REPORT AT THE MARCH 2022 MEETING.                 |
| 2. | THE RISK OF NOT FIT FOR PURPOSE BUSINESS CONTINUITY ARRANGEMENTS.   | OCTOBER<br>2020  | A PROGRESS UP-DATE IS PROVIDED UNDER THE GROUP RISK SECTION.   |
| 3. | GOVERNMENT'S THREE WATERS<br>REFORM PROGRAMME.  | DECEMBER<br>2020 | SUBJECT TO AN INFORMATION<br>REPORT AUGUST 2022<br>ASSURANCE, RISK AND<br>FINANCE COMMITTEE<br>AGENDA. |
| 4. | POTENTIAL IMPACT OF THE WORKSAFE DECISION, IN DECEMBER 2020, TO CHARGE 13 PARTIES OVER THE WHAKAARI/WHITE ISLAND TRAGEDY; AND THE GOVERNMENT REVIEW OF WORKSAFE NEW ZEALAND'S PERFORMANCE OF ITS REGULATORY FUNCTIONS IN RELATION TO ACTIVITIES ON WHAKAARI WHITE ISLAND. | FEBRUARY<br>2021 | IMPACT TO BE CONSIDERED WHEN FURTHER INFORMATION IS TO HAND.   |

|    |   |                  | DOES NOT RESULT IN ANY UNBUDGETED EXPENDITURE.   |

# Organisational risk progress reports:

Nine of the scheduled risk progress reports, including high level treatment plan progress, are provided with highlights and analysis of risk progress below. More detail is available in the attached risk progress reports.

The ARF004 Asset Management Risks progress report has not been tabled. This risk was established in 2018. At this time the main focus for addressing, what is really an issue, was the establishment of Programme Darwin to deliver technology and process change, alongside appropriate resources and skill that would dramatically increase the maturity of Council's asset management functions.

The Infrastructure and Asset Management Group would like to revisit this stated risk to articulate what the current risk is in this space. Then the impacts and proposed treatments will better match that statement of risk. Improvements to our asset management practices are underway, these are both within the previous auspices of Programme Darwin, like the condition assessments across Three Waters and District Facilities asset portfolios, and also as improvements to processes and procedures such as preparing project briefs for delivery and establishing the comprehensive Asset Management Plan Council needs.

Additionally, Council has not quantified climate risks to its assets, nor are these risks addressed in asset management plans. Without quantifying the risks and the impact of risk treatment options, it will be nearly impossible to maintain effective oversight of the council's assets.

# Risk progress reports – highlights and analysis:

- 1. ARF003 Health & Safety Vulnerabilities risk progress report. The inherent risk rating trend has been assessed as **stable** as we have a strategy which identifies a course of action to reduce this risk.
- 2. ARF006 Project Priorities Deliveries Delays risk progress report. The inherent risk rating trend has been assessed as **increasing** as we are now needing to address significant issues as this risk has not been successfully mitigated.
- ARF012 Contract Management Risks risk progress report. The inherent risk rating trend has been assessed as **increasing** due to the increasing cost of money, labour, chemicals, fuel, raw materials; ability to retain and attract new staff; and the ability to access supplies and import specialist plant & equipment.
- 4. ARF013 Drinking Water Resilience risk progress report. The inherent risk rating trend has been assessed as **stable**. The Draft Water Safety Plans contain a risk register and improvement plan for each scheme.
- 5. Consolidated Climate Change Risks (ARF015, ARF016 and ARF017) progress report. The inherent risk rating trend has been assessed as **stable** for these three Climate Change risks. There is an active structured Climate Change treatment plan in place:
  - Treatments have been analysed then clustered into one of six distinct themes to help synthesize information and provide insights
  - Treatments are provided in two tables, those in progress and a pipeline of potential / planned treatments
  - The Climate Change Risk Reference Group continues to progress actions working with WSP to develop a science-based emissions reduction programme
- 6. ARF019 Resource Consents risk progress report. The inherent risk rating trend has been assessed as increasing as Council continues to receive an increasing number of applications for resource consents while also needing to manage a significant backlog. District Services provide a monthly resource consent status report to Elected Members.

# **Organisational Risk Up-date**

Group risk registers have been retired with the establishment of a SharePoint register containing all identified organisational risks. An overview of total organisation risk by risk theme is provided in table four. The largest number of risks are in the operational/financial risk category and the

majority of risks are assessed as medium impact. Further business intelligence will be provided once BI reporting has been implemented.

# **Protecting Council data**

Two potential issues have occurred which could have resulted in data security breaches:

- FNDC received a security alert of a potential cybersecurity breach involving 20 FNDC email addresses. This risk was immediately mitigated with affected staff contacted and instructed to change their passwords. The upside is that this event provides evidence that our cyber security controls are working.
- 2. Privacy Act, potential privacy breach: the K drive, available in citrix, is a shared network drive that all staff have access to. Private and personal information was identified in some of the records located in K drive. These records were promptly removed, and a cross functional team established to investigate and mitigate this risk. After a review by Legal, of the information and facts, it was determined that it was highly unlikely that a privacy breach had occurred. Treatments in place include:
  - a. ongoing management of K drive by the Information Management Team with the intention that K drive will likely be made redundant and in the meantime a process for its short-term use, management and destruction of information currently held in the K drive is underway
  - b. internal communication campaign (SharePoint article, People Leaders notification, individual follow up with staff)
  - c. All of staff Friendly Fishing training on the Privacy Act.

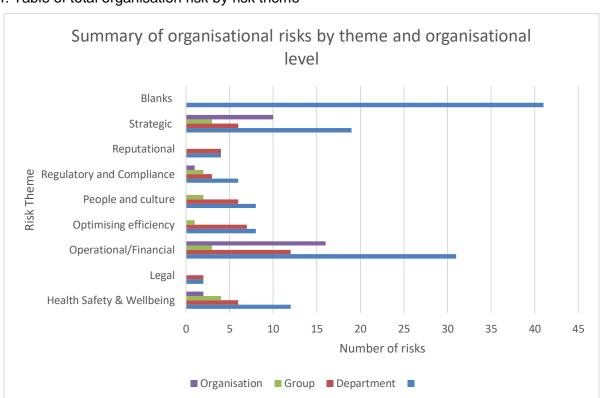

Table 4: Table of total organisation risk by risk theme

Key: description of risk category:

- Health Safety & Wellbeing a work environment that is without risk to health and safety, so far as is reasonably practicable
- Legal Application of the law (and its consequences) to FNDC actions
- Operational/Financial Whole of business view of FNDC performance including service/services delivery, risk, finance, environmental,
- Optimising efficiency Managing the present, lineal response to what exists today such as system, Continuous Improvement, process
- People and culture Capability, mindsets, behaviour
- Regulatory and Compliance- Conforming to rules, external = law or regulation; internal = policies
- Reputational The external estimation in which FNDC and brand is held
- Strategic Adapting to change: Innovation / create the future / selectively forget the past.

Table five provides a few of total organisational risk by impact score (high, medium, low). 19% of organisational risk has been scored as high impact, 40% medium impact and 23% low impact. A number of risks are yet to be scored.

Table 5: Table of total organisation risk by impact score (high, medium, low).

Work continues at group level to understand where there is a greater than 70% probability of the risk materialising within the next three years and to regularly assess the risk trend, particularly for the high impact risks.

# **Business continuity arrangements**

The COVID-19 crisis response and crisis management teams continue to manage the Council's COVID-19 response reviewing and up-dating protocols as the Government changes measures in response to the omicron outbreak.

# Business continuity arrangements for essential services:

# **ARF003 Health Safety and Wellbeing Vulnerabilities**

# Risk Status Progress Report for August 2022

Prepared 11/08/2022

### **Description of risk and impact**

Health, Safety and Wellbeing Vulnerabilities are those elements defined in the Health & Safety at Work Act (2015).

The Council has a duty to ensure, so far as is reasonably practicable, that our workplace is without risks to the health, safety and wellbeing of any person and has controls in place to firstly eliminate or minimize those risks.

### 90-day Health Safety and Wellbeing Review

The Health, Safety and Wellbeing Manager has now been in place for five months. During that time meetings have been held with all Council's general managers as well as with health and safety managers from neighbouring councils and key stakeholders, such as Ventia and Top Energy.

The 90-day review found that FNDC does not use a specific health and safety management system. There are records in Objective detailing the use of the Workplace Safety Management Practices Programme (WSMP), which was administered by the Accident Compensation Corporation (ACC). That system officially ended on 31 March 2017 following the introduction of the Health and Safety at Work Act 2015 (the Act).

Although the Act does not require the use of a specific management system, the Health, Safety and Wellbeing team (HSW) believe that it will be worthwhile, in the long term, for FNDC to align their processes and systems with a recognised system, that incorporates regular independent audits. The two options currently being reviewed are ISO45001, which is a specific health and safety standard, and SafePlus, which is a health and safety performance improvement toolkit for businesses designed by

The current health, safety and wellbeing policy and strategy will be reviewed with the CEO over the coming months.

### Existing Treatments - What has been done so far?

- Regular health and safety reporting included in the People and Capability section of the CEO report.
- FNDC's Health and Safety Committee continue to meet monthly.
- See table 1 for examples of existing health and safety treatments.

FNDC has a policy and a process for workplace harassment, discrimination and bullying prevention, titled 'PC 006 Workplace, Harassment, Discrimination & Bullying Prevention'. In addition, the HSW team have information around bullying on their TK3 page. Any bullying allegations would be reported in the P&C bi-monthly report to the SLT. There have been no allegations in the last six-months.

Table 1: Examples of existing treatments

| Examples of existing treatmen       | ts in place to support the Health, Safe | ety & Wellbeing of FNDC Staff            |
|-------------------------------------|---|--|
| Health & Wellbeing Focus            | Training & Competence Development Focus | Risk Management/Contractor<br>Management |
| Employee Assistance Programme (EAP) | HSW staff training profiles             | SiteWise Pre-qualification               |
| Wellness Advocates                  | HSW training catalogue available        | Job Safety Analysis (JSA)                |
| Flu/COVID-19 Vaccinations           | All available training in CiAnywhere    | Tender & Contractual references to H&S   |
| Hybrid Working                      | Lone Worker/Vehicle GPS                 | Project Safety Inspection Audits         |
| Wellbeing Leave & Policy            | Staff HSW inductions (new starters)     | Quarterly workplace inspection schedules |
| Injury Rehabilitation & Management  | Health & Safety Representatives         | Emergency management procedures/policies |

# **Reviewing evidence**

- A new HSW strategy has been produced, agreed on by the Chief People Officer, and is being
  presented at upcoming leaders' meetings across Council. The strategy is one page and can be
  read via the <a href="HSW TK3">HSW TK3</a> page. The strategy incorporates both health and safety and wellbeing and
  outlines the major work programs for the next two years.
- The lone worker safety project has been reviewed. There are good devices and procedures
  available, but the HSW team will be rolling out further training across Council to highlight what is
  available.
- Generic job safety analysis documents (JSA's) have been produced for some activities, such as
  driving on council business. More are being collaborated on with various operations teams for
  accuracy and suitability (e.g. Animal Management are working on lone working).
- An HSW training programme, for the new fiscal year, is being put together to ensure staff are
  suitability trained and equipped to do their roles safely. This training will, in the most part, be paid
  for by HSW and will be booked through CiAnywhere. A recent example is the roll out of
  Fleetcoach driver training to teams using allocated vehicles. This training may be rolled out
  across the organisation during the year.
- Wellbeing across Council is currently being supported through:
  - o Free access to Employee Assistance Programme (EAP) to all staff.
  - o Advice and assistance on the HSW TK3 page.

 A new wellness platform called <u>My Everyday Wellbeing</u>, that offers a wide range of wellbeing advice and challenges was introduced in July. So far approximately 48% staff have used the site.

# Where are the gaps? / what more could we be doing?

- FNDC has roughly 300 Asbestos Management Plans that are due for review by 2023.
- Development has started on a *Standard Operating Procedure* to improve and coordinate staff and Elected Member safety should they be compromised from external threats.
- Non-compliance against HSW Act regulations at five water treatment plants is progressing with the expectation that all work will be completed within the statutory five-year timeline.

The overall assessed risk trend as stable because we have a strategy which identifies a course of action to reduce this risk.

| Inherent<br>Risk: | Trend of risk rating | Residual<br>Risk: | Accountable: | CEO                        | Date raised:   | 29/11/18 | Report frequency: |

| High              | Stable               | Medium            | Responsible: | Chief<br>People<br>Officer | Date accepted: | 16/06/19 | 3 monthly         |

# **ARF006 Projects / Priorities Delivery Delays**

Risk Status Progress Report for August 2022

Prepared 28//07/2022

### **Description of risk and impact**

Project / Priority delivery continues to be driven by the project lifecycle (conception and business casing through delivery and ongoing management / maintenance) and involve having robust capabilities to support each stage of this lifecycle.

### Existing Treatments - What has been done so far?

Tracking progress of individual projects is reported in the monthly IAM Business Report.

Increased DFA levels has improved the efficiency of our processes through reduction of approvals.

Where are the gaps? / what more could we be doing?

Current environment:

We are now needing to address significant issues as this risk has not been successfully mitigated.

### 1. Uncertainty around asset management - conception and business casing

Programme Darwin was established to increase the maturity of Council's asset management functions through a mix of technology and process change alongside appropriate resources and skill. While Improvements to asset management practices are underway, with the dis-establishment of Darwin ARF006 Project / Priority delivery delays continues to experience the impact of the materialisation of the ARF004 Asset Management Risk. This will continue until improvements to Asset Management processes and procedures, such as preparing project briefs for delivery, and establishing comprehensive Asset Management Plans are on time and fit-for-purpose.

While numerous scopes have been received for FY22/23, each stage has yet to be checked against the Project Management Framework requirements. These scopes need to be triaged and prioritised.

### 2. Uncertainty around actual cost

- Insufficient budget risk insufficient budgets as indicative concept design and pricing was not undertaken prior to budgets being set
- Impact of inflation on not completing work in the planned cycle (i.e. if the work is not completed when planned it is likely to become more expensive). This risk needs to be priced into the project as an allocated risk allowance with a quantitative risk assessment, as appropriate.

| Inherent<br>Risk: | Trend of risk rating | Residual<br>Risk: | Accountable: | CEO     | Date raised:   | 29/11/18 | Report frequency: |
|-------------------|----------------------|-------------------|--------------|---------|----------------|----------|-------------------|
|                   | Increase             |                   | Responsible: | GM IAMs | Date accepted: | 30/05/19 | Three             |
|                   |                      |                   |              |         |                |          | monthly           |

# **ARF012 Contract Management Risks**

Risk Status Progress Report for August 2022

Prepared: 04/08/2022

# **Description of risk and impact**

Contract management risk can arise due to contract wording, contract breaches, contract performance and relationship management.

Contract management risks have the potential to negatively impact on financial, legal, reputational, service delivery and create long term issues for the Far North District. If not managed correctly we could see delays and interruptions with lengthy, drawn-out disruption. Commercial and legal resource demand could be impacted.

# **Existing Treatments**

### Treatments established:

- A. Two specialists are in place:
  - 1. Contract Management Specialist, PMO (currently supporting the Procurement Specialist)
  - 2. Contract Specialist, District Facilities.
- B. A FNDC-wide Contracts Register is available in TK2. This was retired 31 July 2022.

# High level treatment plan and progress up-date:

| High level treatment plan:   | Progress update:   |
|--|--|
| Internal Contract Management Processes   |  |
| Develop Contract Management Framework. The Contracts Framework covers three main contractual arrangements, AOG (All of Government) and syndicated contracts. | Completed.  Phase 1 of the roll out (to IAM) has commenced.  |
| Develop Policy, process and templates.   | Completed.   |
| New treatment May 2021: Refresh of the contract register.  | <ul> <li>In progress. This will be accessible to all staff from 31 July 2022.</li> <li>The new Contract Register is 50% complete</li> <li>Continuing to search for contract documentation to attach to register</li> <li>Secure repository required to hold hard and soft copies of contract documents (contract, bonds and warranties and insurance certificates).</li> </ul> |
| New treatments June 2021   | In progress.  PMO is developing a new process for small contractors.   |

| Develop process to manage "Small" contractors contract management risk (health and safety, delivery and financial risk); and contract concentration risk. | Contract Concentration Risk guidance is being formulated   |  |  |  |
|---|--|--|--|--|
| Building internal capability  |  |  |  |  |
| Increase internal commercial expertise.   | Ongoing.  Targeted training, in contract management, will be delivered to contract owners. Contract managers will be identified through the new contract register.  Training, to develop contract management capability in the IAMs Infrastructure & Asset Management team, continues.  The Contract Management Specialist provides project specific advice. |  |  |  |
| District Facilitates Assurance Review   | To be confirmed if this is included on the 22/23 audit and assurance pipeline for scheduling.  |  |  |  |
| LGA Section17A reviews  | Solid Waste – Morrison Low have been appointed to<br>undertake the 17A review then to formulate the RFT<br>documents   |  |  |  |
|   | <ol> <li>Security of Council buildings – underway</li> <li>Town, parks and reserves maintenance, delayed to 2023 with the RSL contract extended for two year (to June 24).</li> </ol>  |  |  |  |
|   | This work is in the process of being scoped.   |  |  |  |

# Where are the gaps? / what more could we be doing?

Council's Waste Management Strategy is due for renewal in 2023. The new waste management contracts will be flexible to incorporate our waste management strategy and government reforms for the sector.

# **Current environment:**

Increasing cost of money, labour, chemicals, fuel, raw materials; ability to retain and attract new staff; and the ability to access supplies and import specialist plant & equipment, is impacting the viability of suppliers to deliver services and for FNDC to invest in infrastructure.

- Companies providing services to FNDC have the added pressure of travel distances required to service our dispersed district.
- Changing demographics are also changing rate payer expectations on the level of service provided.

There are two outcomes which will impact Council cashflow at a time when we are experiencing increasing cost of money to fund debt:

1. Cost of services will increase - the impact on FNDC on operational services will vary by supplier and contract e.g. the two solid waste contracts have inflationary clauses; Ventia contract is total

- outturn cost which is agreed each year (to cater for inflation and changes in level of service). We are receiving requests from contractors to increase rates due to inflation.
- 2. We will experience higher risk in delivery of capital projects to time and to budget companies are experiencing critical cashflow bottlenecks due to not meeting contract milestones which mean they are missing milestone payments. The result is we are seeing a significant uptick in companies going into administration (more than 100 construction companies have tipped into administration this year).

It is anticipated that these trends will continue, at least into the mid-term (2 to 5 years) and will continue to place many households under financial pressure as well.

| Inherent<br>Risk: | Trend of risk rating | Residual<br>Risk: | Accountable: CEO |         | Date raised:   | 29/11/18 | Report frequency: |
|-------------------|----------------------|-------------------|------------------|---------|----------------|----------|-------------------|
|                   | Increasing           |                   | Responsible:     | GM IAMs | Date accepted: | 30/05/19 | 3 monthly         |

# **ARF013 Drinking Water Resilience**

Risk Status Progress Report August 2022

Prepared: 19/07/2022

### **Description of risk and impact**

In accordance with our Risk Management Policy, adopted by Council August 2019, the "Drinking Water Resilience" risk was adopted at the 05/07/20 Council meeting as a top organisational risk. This risk was scored and prioritised using Council's bespoke IDEATE methodology.

Council own and operate eight drinking water schemes supplied by 14 primary and supplementary sources and nine water treatment plants.

The primary source for Kaikohe, Kaitaia, Opononi, Rawene, Kawakawa and Paihia are surface water takes from local rivers and streams. Kerikeri also relies heavily on surface water as its secondary source. For each of these surface water takes Council hold a consent issued by the Northland Regional Council. The consents have conditions relating to many things but most importantly:

- the volume of water FNDC is authorised to take, and
- the instantaneous residual flow we are required to leave in the environment.

Surface water takes are impacted by droughts. Droughts typically cover a large geographical area; not just a single catchment or community. Irrespective of the volume of water FNDC is consented to take, there is a 20 percent chance each year that we will not be authorised to take water from the surface water sources for a week or more.

| Group / SLT                         | Risk level     | Inherent Risk | Risk description | Because of  | There is a chance that  | leading to  |
|-------------------------------------|----------------|---------------|------------------|---|---|---|
| Infrastructure and Asset Management | Organisational | 35            | Strategic        | Lack of freshwater<br>resilience - long-term<br>trends in rainfall coupled<br>with changing and<br>increasing consumer<br>demands | Current freshwater<br>supply systems will<br>continue to not meet<br>demand both now and<br>into the future | Critical impact on our communities i.e. lengthy water restrictions; no/interrupted supply; costly economic consequences (affordability); extensive Health & Safety impacts across the district; economic and reputational risk from a failure to supply adequate potable and fresh water; negative environmental impacts. |

The "Drinking Water Resilience" risk has been analysed as both an organisational and a strategic risk. A score of 35 or greater is in the high-risk category.

To ensure clarity this risk excludes "Action for healthy waterways" new rules and regulations aimed to:

- stop further degradation of New Zealand's freshwater resources and improve water quality within 5 years
- reverse past damage and bring New Zealand's freshwater resources, waterways, and ecosystems to a healthy state within a generation.

# **Existing Treatments**

- 1. Professionally managed water source and networks.
- Asset management planning to consider growth, expansion, development for each of our communities
- 3. Treated Water Supply Bylaw this allows us to make water restrictions if and when needed.
- 4. Water Shortage Management Plan this outlines the processes and provides guidance on how water restrictions can be implemented to manage demand.
- 5. Water Shortage Management Committee is established with internal technical specialists who monitor and make recommendations on water restrictions to GMIAM.
- 6. Drought Communication Plan.
- 7. Ability to enact a dedicated drought response team (as used in the 19/20 drought).

### High level treatment plan and progress up-date:

| High level treatment plan:     | Progress update:  |  |  |  |  |
|--------------------------------|---|--|--|--|--|
| Long Term Plan.                | Planning commenced, June 2022, for assessing community needs with a focus on the next three years for LTP 2024/2034.  |  |  |  |  |
| Crown 3-waters reform funding. | The Funding Agreement and Delivery Plan included a portfolio of projects to be completed prior to June 2022. Of the 18 projects, 13 will improve resilience. The following projects have been completed:  |  |  |  |  |
|                                | <ul> <li>Kaitaia new water source</li> <li>Update water safety plans across the district</li> <li>Network model upgrades</li> <li>Enhanced water leak management</li> <li>Enhanced water monitoring capability and data capture</li> <li>Kaikohe new water source</li> </ul>  |  |  |  |  |
| Water Safety Plans             | Draft Water Safety Plans (WSPs) are being reviewed and will be completed for submission to Taumata Arowai by 14 November 2022.  |  |  |  |  |
|                                | The final WSPs, and the implementation plan, is underway collaboratively with FNDC staff and Far North Waters. Some implementation activities are already progressing e.g. continuous monitoring and WaterOutlook. The WSP Risk Registers and Improvement Plans have informed LTP workshops. A summary of 3 Waters issues and improvements has been prepared for the CEO. These will be workshopped with FNW before 14 November 2022. |  |  |  |  |

### Where are the gaps? / what more could we be doing?

The June 2021 deep dive was a rapid immersion into our drinking water resilience risk. At the session Elected Members wanted to understand resilience regarding changing conditions and operations, and how our thinking around resilience has matured. The Draft Water Safety Plans contain a risk register and improvement plan for each scheme. Consequently, this gives Council a new benchmark for the current risks and an updated understanding of what is required to manage those risk elements.

In June 2022 the Sweetwater bore project was completed with water from the bore now piped to the treatment plant. Alterations to the treatment plant and commissioning new monitoring equipment is underway to enable this source to be used.

Early and continued engagement with Taumata Arowai, to ensure all obligations are known and understood. Current topics include:

- What are Council obligations in respect of non-public schemes?
- If a private scheme starts to impact ratepayer health what is Council's responsibility?
- Drinking Water Standards have now been finalised. The Acceptable Solutions and Assurance Rules have not yet been finalised. These are expected in August 2022.

Council needs to determine what level of residual risk are we prepared to accept.

| Inherent<br>Risk: | Trend  | Residual<br>Risk: | Accountable: | CEO     | Date raised:   | March<br>2020 | Report frequency: |
|-------------------|--------|-------------------|--------------|---------|----------------|---------------|-------------------|
|                   | Stable |                   | Responsible: | GM IAMs | Date accepted: | 05/07/20      | Three monthly     |

# **ARF019 Resource Consents**

Risk Status Progress Report for August 2022

Prepared 08/08/2022

### **Description of risk and impact**

Over the past five years, Council has received an increasing number of applications for resource consents. The number of applications received is continuing to rise driven by the release of the Proposed District Plan (PDP), environmental legislative changes, the needs of the critical housing market and the influx of new residents to the Far North.

Processing of resource consents is impacted by insufficient FTEs, dwindling consultant availability combined with a high market demand for planners resulting in significant numbers of vacancies within the Team.

Because of Unidentified increase or decrease of requirement for environmental consents, monitoring and licensing, driven by user demand, and new environment due to effects of COVID-19 pandemic, new proposed District Plan and RMA Reform there is a chance that FNDC do not have the flexibility to increase/decrease resources to meet the demand, leading to poor legislative performance and siege mentality. We do not meet our statutory obligations and/or staff loss.

The risk has been analysed as an organisational risk in the Operational/Financial category with a high impact score of 41 and a probability of "will happen".

#### Existing Treatments - What has been done so far?

Since October 2020 District Services have flagged that this is an emerging risk. Despite analysis and treatment of this risk by District Services (including Vision 20/20, IT systems enhancements) the risk trend is increasing and is impacting on our ability to meet statutory timelines.

The Environmental Services team have implemented a delivery plan (April 2022) to resolve the backlog of resource consent applications and to ensure that the Resource Consents Team achieves statutory timeframes under the Resource Management Act 1991. The plan recommends:

| Treatment   | Progress to plan   |
|---|--|
| Offer remote working option                       | In place   |
|   | Currently have remote worker in Dunedin. New fixed term Intermediate to work from Auckland.  |
| Pay Market allowance                              | From 1 July 2022, this has been applied to all Team Leader, Senior Resource Planner and Intermediate Planner roles as well as Senior Resource Consent Engineer role. |
| Create additional fixed term and permanent roles: | Additional fixed term (2 year) roles created:  |
| 1 X Planning Support Officer                      | 2 fixed term Intermediate Planners   |
| 1 X Resource Planner                              | 2 fixed term Senior Planners   |
| 1 X Intermediate planner                          | 2 fixed term Planning Technical Assistant  |
| 1 X Senior Planner                                | 2 Senior Resource Consent Engineer   |
| 2 X Senior Resource Consents Engineer             |  |
| 1 X Principal Planner                             | No additional permanent roles have been created.   |

| Treatment   | Progress to plan   |
|---|--|
| Hire an additional five staff on fixed term: 1 X Planning Technician 2 X Intermediate planner 2 X Senior Planner                            | Intermediate planner starting 3 October 2022     Fixed term intermediate planner starting 5     September 2022     Fixed term Technical Planning Assistant started 8     August 2022 |
| Engage additional consultants   | In July two additional Consultants have been contracted - Geologix Consulting Engineers Limited - Studio Civil Limited   |
| Restructure department Establish:  1 X new role Manager Resource Consents 3 X new team leaders (includes planning support / RC engineering) | No progress to restructure, this will be within realignment project.   |
| Analyse funding model   |  |
| Investigate shared resourcing with Whangarei District Council   | WDC have provided 5 hours per week to complete s88 checks with no cost during July   |
| Templates to support processing of resource consents against the proposed district plan.  | Templates available Training to use completed 4Sight have completed training, templates and practice notes to the RC Processing team, Monitoring Officers and PIM Officers in July   |

# Where are the gaps? / what more could we be doing?

For the month July 2022

- 106 applications were received. This is the highest number of applications received in a month when compared to the last five years, exceeding the previous record set in May 2022 by three applications.
- 15.5% applications were processed within statutory timeframes. This is up from 12.2% June 2022 and 10.7% May 2022
- \$45,633.89 Discounts applied, total discounts for the FY22/23 = \$45,633.89. Total discounts for FY21/22 = \$153,810.98.

At the end of July 2022 192 resource consent applications were unallocated

The impact and likelihood of this risk has increased due to the increasing volume of consents waiting for allocation and for an engineering review.

| Inherent<br>Risk: | Trend of risk rating | Residual<br>Risk: | Accountable: | CEO   | Date raised:   | Oct 2020   | Report frequency: |

# Climate Change Risks ARF015, ARF016, ARF017

Risk Status Progress Report August 2022

Prepared: 29/07/2022

# Risk progress report for climate change risks:

- ARF015 Climate Change Organisation Transition Risk
- ARF016 Climate Change Community Transition Risk
- ARF017 Climate Change Direct Risk to Council Physical and Natural Assets

# **Description of risks and impacts**

These strategic risks were raised and accepted onto the organisational dashboard on the 01/12/2021. All these risks are considered "likely to happen". The CEO is accountable for these risks with the GM SPP responsible. Table 1 describes the three climate change risks subject of this report.

Table1: Climate Change Risk statements

| Risk ID                        |      | Inherent Risk | Risk Trend | Cause "Because of"   | Risk "There is a chance that"                   | Effect "leading to"   |
|--------------------------------|------|---------------|------------|--|---|---|
| ARF015 Organisation Transition | Risk | 31            | Stable     | This is a wicked problem and we are a complex organisation. We need to transition our organisation to meet the requirements of a lower carbon, climate-resilient economy while ensuring prudent management, regulatory compliance and full disclosure to our communities of vulnerabilities to climate change. | Not understanding, or implementing, treatments. | Failure to comply with regulatory requirements; legal challenge resulting in fines and penalties; poor decision-making which negatively impacts our communities and Council; impact on our financial sustainability, and reputational damage. |

| Risk ID   | Inherent Risk | Risk Trend | Cause "Because of"   | Risk "There is a chance that"   | Effect "leading to"  |
|---|---------------|------------|--|---|--|
| ARF016 Community Transition Risk                              | 39            | Stable     | Not working with communities to identify vulnerabilities, to things of value in those communities, due to potential changes in the climate.  | We do not work with communities to identify solutions to drive targeted action and investment in adaptation and mitigation. | Inequitable transition of our communities; and may worsen pre-existing inequities.  We do not meet our community wellbeing obligations.  Exposure of the community to rapid market disruption.  We miss out on potential opportunities.  |
| ARF017: Climate Change Direct<br>Risk to Council Physical and | 37            | Stable     | Neither identifying the physical hazards and vulnerabilities, nor engaging with our communities, to plan for and mitigate the impacts of climate change on our infrastructure and levels of service. | Infrastructure may be exposed and vulnerable. Natural assets may become eroded/damaged.                                     | Leading to damaged/lost infrastructure impacting levels of service, community wellbeing, environmental damage and financial cost to communities and Council. Ecosystem services may reduce, placing increased risk on operational costs. |

# What are we doing?

Climate change will require us to adapt and reshape our economy and lives.

### Environmental context within which we are working

Aotearoa New Zealand's first emissions reduction plan has been adopted. This sets the direction for climate action for the next 15 years and lays out the targets and actions New Zealand will take to meet those targets. These will be across every part of government and every sector of the economy from transport, energy, building and construction, waste, agriculture and forestry.

Progress on the National Adaptation Plan (NAP), to help New Zealand minimise damage from a changing climate, will published in the coming weeks alongside a summary report of the key themes from public consultation and individual submissions.

### **Progress on Treatments**

Treatments are organised into six themes based on the treatment opportunities. Table 2 explains the six themes which directly aligned with four areas for action in the Te Tai Tokerau Climate Change Adaptation Strategy adopted by Council in March 2022.

Treatment progress is reported by theme (table 3) with a final table (table 4) is a treatment pipeline.

Table 2: Explanation of the six affinisation themes.

| Theme                             | Explanation of the theme  |
|-----------------------------------|---|
| Grow Relationships                | We will face backlash whether climate action is slow or aggressive which could weaken support for action; conversely, slow action could trigger further radicalization from those who feel we did not act fast enough, with a potential increase in intergenerational friction and more fiscal drain due to increased recovery funding.  Relationships will also be important due to the disruptive potential of the transition which could be amplified by disconnects between governments, businesses and households with respect to policy commitments, financial incentives, regulations and immediate needs. |
| Build Capacity                    | The process by which we as individuals or our organisation, and other organisations we work with, obtain, improve or retain the skills, knowledge, tools, equipment or other resources to mitigate and adapt to climate change.   |
| Improve knowledge + understanding | Educate our staff and communities about climate change so they understand the need for action, the sheer scale, complexity and interdependency of the needed changes.   |
| Reduce Emissions                  | Achieve an overall balance between greenhouse gas emissions produced and greenhouse gas emissions taken out of the atmosphere Need to an agreed target e.g. net zero  |
| Adapt to climate change impact    | Adaptation is an ongoing process of adjusting to the actual and expected changes in the environment resulting from greenhouse gas emissions already released into the atmosphere and those that may be released in the future. Adaptation is an ongoing process as the climate will continue to change throughout this century and beyond. It is different from but linked to mitigation, which is about reducing greenhouse gas emissions to limit further climate change and increasing the ability of natural processes to absorb emissions, for example, by planting trees.                                   |
| Regulate and Govern               | Regulatory stewardship is the monitoring and care of regulatory systems for which we have policy or operational responsibilities. Its goal is to ensure that regulatory systems remain fit for purpose over the long term.  Govern: control and manage district and our people; control the way that things happen; control how we operate  |

Table 3: Summary of in progress climate change risk treatments, up-dated 29/07/2022

(Treatments which are numbered have been lifted from the Te Tai Tokerau Climate Adaptation priority actions list)

| <b>Grow Relationships</b>  |  |  |                                  |          |                     |
|--|--|--|----------------------------------|----------|---------------------|
| Treatment  | Description  | Status   | Climate change<br>Risk addressed | Due Date | Treatment on track? |
| Climate Change Risk<br>Reference Group   | Support the operationalisation of Council's climate change policy  | Established  Membership has been extended to include key service providers.  | All four                         | Ongoing  | Yes                 |
| Appoint resource to support climate change work  | Appoint Manager Climate Change   | Appointed.   | All four                         | Ongoing  | Yes                 |
| Inter-council collaboration: Continue to develop collaborative inter-council programmes and shared services. | FNDC is an active participant in the Climate Change Te Tai Tokerau working group. This reports into a Joint Committee of Council formed under the LGA. Recent work has seen the endorsement of a Regional Climate Adaptation Strategy that has an action plan with assignments to FNDC and a Joint Submission on the National Adaptation Plan. | Established Staff are leading a review of the purpose of the working group now the Regional Strategy has been approved.  | All four                         | Ongoing  | Yes                 |
| Te Tai Tokerau Regional<br>Comms and engagement<br>(CATT)  | FNDC is an active participant in regional climate change work programmes.  | Established Kaipara have started their first climate change adaptation community engagement project. Wangari have appointed a climate change adaptation programme manager. | All four                         | Ongoing  | Yes                 |
| Internal comms and<br>Engagement Plan  | Climate Change Engagement Strategies   | Underway TK3 climate change site established.  | All four                         | Ongoing  | Yes                 |

| Clarify funding responsibilities: | Clarify adaptation management and funding responsibilities between councils.   | Underway Conversation opened around how formalise sharing of resources. Note: we already share resources across Councils. | All four       | Ongoing  | Yes                 |
|-----------------------------------|--|---|----------------|----------|---------------------|
| Advocacy                          | Promote Northland's voice in central government policy and legislation development.  Ensure Northland has input into central government adaptation policy and legislation development.   | Underway Submission made to National Climate Change Adaptation.   | All four       | Ongoing  | Yes                 |
| <b>Build Capacity</b>             |  |   |                |          |                     |
| Treatment                         | Description  | Status  | Risk addressed | Due Date | Treatment on track? |
| Solid waste strategy              | Council's Waste Management and Minimisation Plan (statutory solid waste strategy) is due for review before May 2023.  Central Government is undertaking a major reform of waste recovery involving the development of a new Waste Strategy, changes to legislation, implementation of a several product stewardship schemes (e.g., phasing out certain plastics, changes to tyre recovery etc), proposals to mandate kerbside recycling and food scrap collections, proposal to implement a container return scheme.  Process to develop the new WMMP (Solid Waste Strategy) will follow best practice policy development, and will be informed by the community. The WMMP will align with and be adaptive to both central government led reforms and community led and private sector led innovation. | Underway  | All four       | May 2023 | Yes                 |

| Section 17A review (waste)        | A review based on the requirements of<br>Section 17A of the LGA  Will inform the solid waste strategy and<br>bylaw amendments  | Underway  | ARF015 Climate<br>Change<br>Organisation<br>Transition Risk<br>ARF016 Climate<br>Change<br>Community<br>Transition Risk | Report planned<br>to be with<br>Council   | Yes                 |
|-----------------------------------|--|---|---|---|---------------------|

|--|--|---|----------------|---------------------|---------------------|
| Climate change<br>adaptation planning                                      | FNDC has commenced its weighting and prioritisation process to commence the community climate adaptation programme for the Far North.  This work will include Community  | Underway Council paper being drafted.   | All four       | 6 September<br>2022 | Yes                 |
|  | Engagement Plans.  |   |                |                     |                     |
| Spatial planning   | Kerikeri / Waipapa   | Underway Commissioning WSP to do a community carbon reduction plan  | All four       |                     | Yes                 |
| Regulate and Govern  |  |   |                |                     |                     |
| Treatment  | Description  | Status  | Risk addressed | Due Date            | Treatment on track? |
| Climate change risk reporting  | Reporting back the Audit, Finance and Risk<br>Committee as per the approved reporting<br>timeframes for all four climate change risks  | Established   | All four       | On going            | Yes                 |
| Te Ao Maori decision-<br>making framework                                  | Cultural welfare  Better decision making  Ensure tangata whenua are appropriately involved in adaptation decision-making.  | Drafted<br>WDC led  | All four       |                     | Partial             |
| Climate Change Policy<br>(master document stating<br>our policy positions) | On the back of an organisational governance assessment of FNDC Council has approved the development of a climate change policy. This will address:  • 37. Communication to elected members: Enable governance focus and oversight of climate change issues.  • 38. Joint climate change policy framework: Ensure consistent consideration of climate change issues across individual Councils. | Underway First draft 06/09/2022 Stakeholder engagement work completed. Working on a regional agreement on science based metrics including climate change projections. | All four       |                     | Yes                 |

|                                  | 39. Policy review and improvement plan: Embed climate change objectives across individual council policies, strategies, plans and processes     Embed Māori values in council processes: Ensure Māori values and worldviews are included in council processes and decision-making relating to climate change. Included in policy work |   |          |           |     |
|----------------------------------|---|---|----------|-----------|-----|
| Legislative compliance framework | Meeting our obligations   | On hold Survey planned to inform climate change obligations | ARF015   | Aug 22    | No  |
| Draft District Plan              | 25. District plans: Avoid increasing risk from new development and redevelopment in areas exposed to projected hazards.   | Proposed District Plan has been notified.                   | All four | June 2024 | Yes |

Table 4: Treatment Pipeline (Treatments which are numbered have been lifted from the Te Tai Tokerau Climate Adaptation priority actions list)

| Theme              | Treatment  |
|--------------------|--|
| Grow relationships | <ul> <li>Elected Member comms and engagement</li> <li>National partnerships: Develop partnerships and knowledge sharing with regional and sector groups.</li> <li>Community awareness: Ensure widespread community awareness and interaction on adaptation issues.</li> <li>8. Public access to adaptation documentation: Improve public access to adaptation planning processes, information and documents.</li> </ul>  |
| Build capacity     | <ul> <li>District wide framework - how to manage/react to climate change across the district for each infrastructure</li> <li>Agree an environmental, social and governance (ESG) goals and framework</li> <li>40. Climate risk disclosure: Ensure transparent monitoring and reporting of climate risks and responses.</li> <li>41. Climate change in business cases: Embed climate change considerations in business cases and procurement policies</li> <li>42. Alignment of adaptation plans: Ensure community adaptation planning processes are aligned with council funding processes.</li> <li>43. Climate change teams: Establish appropriate portfolio, programme and project governance and management structures to build organisational capacities.</li> <li>44. Staff resources: Ensure sufficient staff resourcing and capacity.</li> <li>45. Adaptation funding: Identify and pursue adaptation funding avenues.</li> </ul> |

| Improve knowledge + understanding | <ul> <li>Collecting local Māori knowledge of risks and effects</li> <li>Internal Workshop – implementation of Climate Change Adaptation Te Tai Tokerau Strategy</li> <li>Adoption of climate adaptation Te Tai Tokerau strategy and priority actions plan</li> <li>Climate change risk assessment for new or renewal design and build then operation of assets for elected member decision making asset</li> </ul>  |
|-----------------------------------|---|
|                                   | management plans  • 5. Infrastructure planning: Ensure consideration of climate change impacts in infrastructure planning:  o Improve knowledge of climate risk for council assets and infrastructure  o Improved consideration of climate change in asset management plans and associated operational procedures  o Coastal Erosion CAPEX Framework  o In depth assessment of risk and consequence of natural hazards by asset  o Asset spending prioritization matrix for CAPEX.  |
|                                   | <ul> <li>Available data sets are not feeding into planning through the organisation: Coastal Community Profiles and Northland Regional Council Hazard mapping</li> <li>11. Consistent infrastructure risk assessment criteria to improve consistency and quality of climate risk assessments</li> <li>4. Research participation: Improve local adaptation knowledge through local programmes and national and international research.</li> <li>8. River flood risk assessment: Improve understanding of river flood risk under climate change and plan future river flood management programmes.</li> <li>9. Māori adaptation impact assessment: Improve bi-cultural understanding of climate risks and consequences.</li> </ul>  |
|                                   | <ul> <li>10. lwi/hapū-focused adaptation: Enable iwi/hapū-led adaptation planning at appropriate scales.</li> <li>14. Lifelines risk assessments: Improve understanding of long-term climate risks to lifelines infrastructure. Develop a lifelines utilities infrastructure risk assessment, working with Northland Lifelines Group         <ul> <li>31. Civil defence: Integrate civil defence and community adaptation planning objectives.</li> </ul> </li> <li>NRC led Climate change scenario and risk assessment:</li> </ul>   |
|                                   | <ul> <li>16. Biosecurity risk assessment Improve understanding of climate change-driven biosecurity threats and develop monitoring and response programmes.</li> <li>17. Ecosystem and biodiversity risk assessment: Improve understanding of climate change impacts on biodiversity and ecosystem function and develop monitoring and response programmes.</li> <li>19. Coastal hazards Improve understanding of coastal hazards under climate change scenarios.</li> <li>20. Land hazard data: Improve understanding of land hazards under climate change scenarios.</li> <li>21. Wildfire hazard data: Improve understanding of wildfire risk under climate change scenarios.</li> <li>22. Coastal aquifers: Improve understanding of the impacts of sea level rise on coastal aquifers.</li> <li>23. Community drought adaptation opportunities</li> <li>Improve understanding of the impacts of drought on rural and community water supplies, and 2) identify opportunities to support</li> </ul> |
| Reduce Emissions                  | community adaptation to drought.  |
| Adapt to climate change impact    | Region-wide coastal management policy Dynamic Adaptive Planning Process Enabling-Coastal-Adaptation Biodiversity Cultural welfare   |

|                     | <ul> <li>Spatial planning district wide         <ul> <li>26. Spatial planning: Embed climate change risks and adaptation planning into strategic spatial plans.</li> </ul> </li> <li>Soil maps</li> <li>29. Coastal adaptation programme: Develop a programme of coastal adaptation planning projects aligned with community needs structure planning - staged implementation of infrastructure roll out/reaction to climate change</li> <li>30. Coastal adaptation planning projects: Enable flexible, planned adaptation responses to coastal hazards by co-developing adaptation plans with communities.</li> <li>32. Nature-based solutions: Promote nature-based solutions as interim hazard-reduction options for coastal impacts.</li> <li>33. River flood management: Reduce flooding risk to communities through river management.</li> <li>34. Coordinated flood risk management: Improve coordination between the District and Regional Councils in pluvial and fluvial flood management.</li> <li>35. Water tank assistance: Improve community water resilience through water tank programmes.</li> <li>36. Water resilience funding coordination: Improve coordination between agencies/organisations to improve water resilience outcomes</li> </ul> |
|---------------------|--|
| Regulate and govern | <ul> <li>27. Region-wide coastal management policy: Ensure integrated coastal management and adaptation objectives are met in region-wide policy.</li> <li>28. Embed community adaptation plans: Ensure community adaptation plans are embedded in regulatory instruments.</li> <li>Council wide target picture (e.g. reduce emissions by / reduce cost by)</li> <li>Environmental / Social / Governance Framework.</li> </ul>   |

## 6.4 THREE WATERS ORGANISATIONAL RISK REPORT

File Number: A3838008

Author: Tanya Reid, Principal Advisor - Organisational Performance and

**Transformation** 

Authoriser: Janice Smith, Acting General Manager - Corporate Services

## TAKE PÜRONGO / PURPOSE OF THE REPORT

To provide an information report on the impact of three waters reform on organisational risk management and potential emergent risks.

## WHAKARĀPOPOTO MATUA / EXECUTIVE SUMMARY

This information report, as requested by the Assurance, Risk and Finance Committee, investigates potential impact of the three waters reform on Council's risk universe and organisational risks.

Three risk have been identified. These are:

- A. Three waters transition risk
- B. Risk if three waters reform is rescinded
- C. Risk if three waters reform proceeds

Impact on current organisational risk is also considered.

## **TŪTOHUNGA / RECOMMENDATION**

That the Assurance, Risk and Finance Committee receive the report Three waters organisational risk report.

#### TĀHUHU KŌRERO / BACKGROUND

The top organisational risks are risks that may impact on Council achieving its vision, mission and community outcomes and are regularly reported to the Assurance, Risk and Finance Committee to ensure they are being appropriately managed.

Three Waters reform will result in a change of focus for Council from a traditional focus on infrastructure service delivery, and dependent on the outcome of the Future for Local Government Review, to a focus on the complex wellbeing challenges of the 21st century, including economic and social equity and climate change action.

## **Three Waters Reform**

02/06/2022 the Government introduced, to Parliament, the Water Services Entities Bill to implement its decision to establish four public entities to take on the delivery of drinking water, wastewater and stormwater services across New Zealand from July 2024.

The Water Services Entities Bill completed its first reading 09/06/2022 and is now with Select Committee. The Select Committee finished receiving submissions on the Water Services Entities

Bill on 22 July. The Committee will now listen to oral submissions from members of the public, local government and organisations.

The bill provides the legislative basis to establish four new publicly-owned water services entities, and sets out the ownership, governance, and accountability arrangements relating to these entities.

The Bill also provides for transitional arrangements relating to the establishment and governance of the new entities, including strategic direction, planning and reporting, employment, and the oversight powers of the Department of Internal Affairs during the establishment period. That period begins when the Bill is enacted and runs until 1 July 2024 at the latest, after which point the water services entities will take over delivery of three waters services.

It is noted that Subpart 4 provides the Department of Internal Affairs with oversight powers during the establishment period. These enable the Department to review – and, where applicable, confirm – local government decisions if these will significantly prejudice or constrain the water services reform, or have a significant negative impact on assets or liabilities that will be transferred to the entities.

Council is also experiencing a changing risk universe with a need to plan for disruption to cope with the uncertain and fast-changing environment which is characterized by less stability and predictability:

#### 1. 2022 Local Government Elections

After the Saturday 8 October 2022 local government election the Far North District will have a new look Council due to retirement of the Mayor, the introduction of Single Transferable Voting and establishment of Ngā Tai o Tokerau, comprising of four councillors elected by voters on the Māori Electoral Roll.

## 2. 2023 Central Government Elections

Local government lacks constitutional certainty. Its functions, form, and funding can be changed by a parliamentary majority, as can its existence. Although established by parliament, local government policy is largely driven by the minister of the day. Local government lacks a mechanism to protect its interests and give balance with our system of central government.

The government will provide additional funding to support Councils with the costs and resourcing necessary to set up the new three waters system.

# MATAPAKI ME NGĀ KŌWHIRINGA / DISCUSSION AND NEXT STEPS Risk analysis and discussion

## 1. Transition (establishment) Period

It is anticipated that if three water reforms progress to the establishment of four public entities, to take on the delivery of drinking water, wastewater and stormwater services across New Zealand, Council will face (if not already experiencing) a transition risk. It is noted that DIA will be issuing guidelines to Council so that Council's do not undertake work where the work product will be superseded e.g. policy and bylaw reviews. The establishment period is forecasted to commence December 2022 and will conclude any time prior to 1 July 2024 with DIA anticipating a 2023 establishment date for Entity A.

Table 1: Risk A - Three waters transition risk

| Cause (Because of)  | Risk (there is a chance that)  | Effect (leading to)  |
|---|--|--|
| The need to deliver business as usual while transitioning to the new Entity A | We will experience difficulties with retention and recruitment of staff DIA can request staff which we will be unable to back fill There will be both reduced levels of services and Council performance We may not be best prepared / strategically positioned for a successful transition We may lack good asset data. | Pressure increases on remaining staff leading to further staff resignations and downward spiral including negative impact on wellness.  We do not achieve the best outcomes for our community. Such as good growth outcomes for our district  We do not provide the best information/data to ensure the best outcome for the Far North District when the new public entity for water, wastewater and stormwater is established |

There will also be an impact on the risk trend for the following three current top organisational risks:

- 1. ARF004 Asset Management Risks
- 2. ARF006 Project Priorities Deliveries Delays
- 3. ARF012 Contract Management Risks

Table 2 details, at a high level, the expected impact top organisation risk trend through the establishment period of three waters reform

Table 2: Changes to risk trend

| Risk ID: | Risk title                              | Risk trend | Rationale for risk trend change:   |
|----------|---|------------|--|
| ARF004   | Asset Management<br>Risks               | Decrease   | Key infrastructure assets will become the responsibility of Entity A.                        |
| ARF006   | Project Priorities<br>Deliveries Delays | Increase   | Impact of transitions and timing of (Alliance and to Entity A) on availability of resources. |

## 2. Impact on Council's top organisational risk of three waters transitioning to "Entity A"

Council's "risk-scape" will change reflecting the shift from the traditional focus on infrastructure service delivery of three waters. Seven of the top organisational risks, that may currently impact Council achieving its vision, mission and community outcomes, are affected by this change are:

- ARF004 Asset Management Risks
- 2. ARF006 Project Priorities Deliveries Delays
- 3. ARF007 Compliance NRC Abatements
- 4. ARF012 Contract Management Risks
- 5. ARF013 Drinking Water Resilience
- 6. ARF015 Climate Change Organisation Transition Risk

## 7. ARF017 Climate Change Direct Risk to Council Physical and Natural Assets

Table 3 details, at a high level, the expected impact on the top organisation risks from the implementation of three waters reform. The inherent risk scores will need to be reassessed, with the expectation that the risk scores will decrease.

Table 3: High level changes to top organisational risk dashboard

| Risk ID:                           | Risk title   | Rationale for change:   |
|------------------------------------|--|---|
| ARF015 Climate Change Organisation | With key infrastructure assets becoming the responsibility of Entity A the quantum of this risk will reduce. |   |
|                                    | Transition Risk  | Currently classified as a strategic risk this risk will be reclassified as Regulatory and Compliance.                                 |
| ARF017                             | Climate Change<br>Direct Risk to   | With key infrastructure assets will become the responsibility of Entity A the quantum of this risk will reduce.                       |
|                                    | Council Physical and<br>Natural Assets   | Currently classified as a strategic risk this risk will be reclassified as Operational / Financial.                                   |
| ARF004                             | Asset Management   | Key infrastructure assets will become the responsibility of Entity A.   |
|                                    | Risks  | Currently classified as a strategic risk this risk will be reclassified as Operational / Financial.                                   |
| ARF006                             | Project Priorities<br>Deliveries Delays  | Reduction in overall value and number of capital projects associated with essential services (water / wastewater / stormwater).       |
|                                    |  | Requirement for externally funded projects to achieve funding milestones  |
|                                    |  | Currently classified as a strategic risk this risk will be reclassified as Operational / Financial.                                   |
| ARF007                             | Compliance NRC<br>Abatements   | Our significant areas of risk/issue are with the water and wastewater assets. This will become the responsibility of Entity A.        |
|                                    |  | Currently classified as a strategic risk this risk will be reclassified as Regulatory and Compliance.                                 |
| ARF012                             | Contract<br>Management Risks   | Reduction in overall value and number of contracts, especially those delivering essential services (water / Wastewater / stormwater). |
|                                    |  | This risk will remain classified as Operational / Financial.  |
| ARF013                             | Drinking Water<br>Resilience   | This risk will become the responsibility of Entity A.   |

## 3. Impact on Council's top organisational risk if three waters remain the responsibility of Council

While it is anticipated that the three water reforms will progress to the establishment of Entity A it is noted that local government functions, form, and funding can be changed by a parliamentary majority. The National Party has signalled that given the opportunity after our next central government elections, they would rescind three waters reform.

If Council remains responsible for three waters it will bear the risk of meeting the new water standards, environmental requirements and achieving compliance. There are also implications and challenges for non-Council supplies to meet water quality requirements, with the risk that these supplies might default to Council in the future.

Table 4: Risk B - Risk if three waters reform is rescinded

| Cause<br>(Because of)   | Risk (there is a chance that)   | Effect (leading to)  |
|---|---|--|
| (Decause of)  | (there is a chance that)  | (leading to)   |
| Change in direction by central government revoking three waters reform. | There will be both reduced levels of services and Council performance  We may not be best prepared / strategically positioned to deliver water, wastewater and stormwater | We do not achieve the best outcomes for our community  Increased rates to bring water, wastewater and stormwater up to the new regulatory standard exasperating affordability issues |
|   | We will experience difficulties with retention and recruitment staff.   | We do not have the required asset data to ensure delivery water, wastewater and stormwater to the regulatory standards or provide for growth within the district                     |
|   |   | Water, wastewater and stormwater policies and by-laws are out of date  |
|   |   | Pressure increases on remaining staff leading to provide water, wastewater and stormwater services.  |

There will also be an impact on the risk trend for the following three current top organisational risks:

- 1. ARF004 Asset Management Risks
- 2. ARF007 Compliance NRC Abatements

Table 5 details, at a high level, the expected risk trend impact on the three top organisation risks if three waters reform is rescinded.

Table 5: Changes to risk trend

| Risk ID: | Risk title                   | Risk trend | Rationale for risk trend change:  |
|----------|------------------------------|------------|---|
| ARF004   | Asset Management<br>Risks    | Increase   | We do not have the required asset data to ensure delivery water, wastewater and stormwater to the regulatory standards or provide for growth within the district. |
| *ARF005  | Affordability Risk           | Increase   | Increased rates to bring water, wastewater and stormwater up to the new regulatory standard.  |
| ARF007   | Compliance NRC<br>Abatements | Increase   | We do not meet resource consent conditions or new water standards.  |

<sup>\*</sup>the Affordability risk is subject to a risk decision report.

## 4. Risk to Council of three waters moving to Entity A

Will Council be functional post three waters reform? The answer is yes, however we are required to wait for three waters legislation to be enacted and Entity A to be established to understand what the "rules" and functions will be.

Table 6: Risk C - Risk if three waters reform proceeds

| Cause (Because of)  | Risk (there is a chance that)   | Effect (leading to)   |
|---|---|---|
| Three waters assets will be transferred from Council's balance sheet                          | Inappropriate funding to cover transition costs impacting on ratepayers and/or delivery of LTP                            | Siloed planning with respect to growth within the district Stranded allocations/staff |
| Operating revenue required to meet operating expenses of stranded allocations                 | We may be unable to match infrastructure to growth (to enable housing etc)  | Affordability of rates combined with Entity charges                                   |
| Land ownership:   | Ward rates may be impacted  | Cost and uncertainty of managing property transfer disputes                           |
| Disagreements on primary use of land  | There may be property transfer disputes   | Customer dissatisfaction (reputation) with Council.                                   |
| Interface between future     Entity A and Council assets     (i.e.: Pump Stations on reserve) | Ability of Entity and Council to negotiate clear and concise Service level and relationship agreements                    | (   |
|   | We don't know what we don't know as this is an emerging "space" e.g. we don't know what functions or staff will transfer. |   |

#### **Treatments**

Council is working proactively on treatments to reduce the impact and probability of risks A and C.

FNDC are currently working on the mitigation of some of our resourcing risks. We are holding regular communication sessions including having 3 Representatives from the DIA visit and speak to SLT, IAM and all staff virtually with updates on the transition.

Alongside this we are reviewing what retention strategies we can put in place to ensure we have competent and capable people within our 3 Waters function.

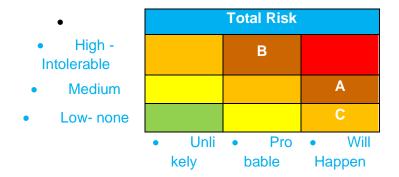

Council staff are working with the team which is developing Entity A.

## 5. Scoring the three waters risks

Staff have scored the three risks by identifying both the risk impact for five organisational areas and the likelihood of the risk occurring. For each organisational area, the risk impact is given a score of "High to Intolerable", "Medium" or "Low to None" and the likelihood is rated as either "Will happen", "Probable" or "Unlikely". The impact and likelihood matrix is used to determine the values for each climate change risk. Appendix A provides the record for the scoring.

The overall score for Risk A (three waters transition risk) and C (risk if three waters progress), is medium with risk B, risk if three waters reform is rescinded, is high-intolerable. The risks would be organisational and in the Operational/Financial category. Currently the probability of the risks materialising has been assessed for risk A and C as "will happen", and for risk B as "probable". This is shown in the heat map below (table seven).

Table 7: Risk heat map

# PĀNGA PŪTEA ME NGĀ WĀHANGA TAHUA / FINANCIAL IMPLICATIONS AND BUDGETARY PROVISION

No additional budgetary provision is requested.

## **ĀPITIHANGA / ATTACHMENTS**

1. Appendix A Scoring the three waters risks - A3837953 4 Table 2015

#### Appendix A Scoring the three waters risks

Staff have scored the three risks by identifying both the risk impact for five organisational areas (see table one) and the likelihood of the risk occurring (see table two). For each organisational area, the risk impact is given a score of "High to Intolerable", "Medium" or "Low to None" and the likelihood is rated as either "Will happen", "Probable" or "Unlikely". The impact and likelihood matrix is used to determine the values for each climate change risk (see table four).

Table 1: Description of risk impact for each organisation area

| Organisation area | Description  |  |
|-------------------|--|--|
| Financial         | Impact on Budget, Department or Team; and /or Impact on annual Council budget                                      |  |
| Customer          | Financial impact to customer due to loss of a provision of essential service, or essential piece of infrastructure |  |
| Reputational      | The impact on FNDC's reputation  |  |
| Compliance/Legal  | The legal impact on FNDC's legal adherence / regulatory compliance   |  |
| Health and Safety | The impact to people(s) health & safety arising from FNDC operations or a situation where FNDC are liable          |  |

Table 2: Description of likelihood

| Likelihood  | Description  |
|-------------|--|
| Will happen | The risk is likely to occur. There is frequent exposure to the risk. There are external influences that make managing this risk ineffective.                         |
| Probable    | The risk will possibly occur e.g. once in every 2 year event There is an exposure to the risk. There are external influences that make managing this risk difficult. |
| Unlikely    | The risk is unlikely to occur e.g. once in every 10 year event There is a low exposure to the risk.  |

Table 3: Impact and likelihood matrix

|        |                     | Likelihood (probability) |             |   |  |  |
|--------|---------------------|--------------------------|-------------|---|--|--|
|        |                     | Probable                 | Will Happen |   |  |  |
|        | High to Intolerable | 5                        | 7           | 9 |  |  |
| Impact | Medium              | 3                        | 5           | 7 |  |  |
|        | Low to None         | 1                        | 3           | 5 |  |  |

An inherent risk score has been estimated for each three waters risk. This was derived by summing the risk value for each organisational area (see table eight).

Table 4: Inherent risk score for each three waters risk

| Risk                    | Organisational area             | Impact                 | Likelihood    | Inherent risk score |
|-------------------------|---------------------------------|------------------------|---------------|---------------------|
| A. Three waters         | Financial                       | Medium                 | Will Happen   | 7                   |
| transition              | Customer                        | Low to None            | Will Happen   | 5                   |
| risk                    | Reputational                    | High to<br>Intolerable | Probable      | 7                   |
|                         | Compliance/Legal                | Medium                 | Probable      | 5                   |
|                         | Health and Safety and Wellbeing | Medium                 | Will Happen   | 7                   |
|                         |                                 |                        | Overall score | 31                  |
| B. Risk if three waters | Financial                       | High to<br>Intolerable | Will Happen   | 9                   |
| reform is rescinded     | Customer                        | Low to None            | Will Happen   | 7                   |
| rescinded               | Reputational                    | Medium                 | Probable      | 5                   |
|                         | Compliance/Legal                | High to<br>Intolerable | Probable      | 7                   |
|                         | Health and Safety and Wellbeing | Medium                 | Will Happen   | 7                   |
|                         |                                 |                        | Overall score | 35                  |
| C. Risk if three waters | Financial                       | Low to None            | Will Happen   | 5                   |
| progress                | Customer                        | Low to None            | Will Happen   | 5                   |
|                         | Reputational                    | Low to None            | Will Happen   | 5                   |
|                         | Compliance/Legal                | Low to None            | Will Happen   | 5                   |
|                         | Health and Safety and Wellbeing | Medium                 | Will Happen   | 7                   |
|                         |                                 |                        | Overall score | 27                  |

The overall score for Risk A (three waters transition risk) and C (risk if three waters progress), is medium with risk B, risk if three waters reform is rescinded, is high-intolerable. The risks would be organisational and in the Operational/Financial category. Currently the probability of the risks materialising has been assessed for risk A and C as "will happen", and for risk B as "probable". This is shown in the heat map below (table five).

Medium

Low- none

#### 6.5 COUNCIL FINANCIAL REPORT FOR THE PERIOD ENDING 31 JULY 2022

File Number: A3849498

Author: Angie Thomas, Manager - Accounting Services

Authoriser: Janice Smith, Acting General Manager - Corporate Services

### TE TAKE PÜRONGO / PURPOSE OF THE REPORT

To provide an overview and information on the current financial position and performance of the Far North District Council as at 31 July 2022.

#### TE WHAKARĀPOPOTO MATUA / EXECUTIVE SUMMARY

This report provides a summary overview, Statement of Financial Performance, Capital Performance and Borrowing and Investment reports.

## NGĀ TŪTOHUNGA / RECOMMENDATION

That the Assurance, Risk and Finance Committee receive the report Council Financial Report for the Period Ending 31 July 2022.

## TE TĀHUHU KŌRERO / BACKGROUND

This report provides financial information as at 31 July 2022.

## TE MATAPAKI ME NGĀ KŌWHIRINGA / DISCUSSION AND NEXT STEPS

The report is for information only.

## NGĀ PĀNGA PŪTEA ME NGĀ WĀHANGA TAHUA / FINANCIAL IMPLICATIONS AND BUDGETARY PROVISION

There are no financial implications or budgetary provisions required as a result of this report.

| Operational Expenditure | 155.8M             | 156.6M           | - 0.7M                            | 0%                                      |
| Net Operating Position  | 17.1M              | 17.4M            | - 0.2M                            |   |
| Capital Expenditure     | 130.3M             | 130.0M           | 0.4M                              | 0%                                      |

\*In the tables above and throughout this report, variances +/- 5% from budget are indicated as on track / green, anything outside this is red.

## **Council Financial Performance – Income**

Please note these figures relate to the Statement of Financial Performance controllable costs only, which excludes general rates and rates penalties.

## **Highlights:**

## Fees & Charges

 Fees and charges are over budget for Resource Consents. July had the highest number of applications received in a month over a five-year period. Discounts given back to customers during this period is \$40K. An additional two consultants have been engaged to help process a backlog of consents and there are currently five vacancies within the team.

## Central Govt Subsidies - Operational

 Income has been received from Waka Kotahi (NZTA) for maintaining levels of service across the district whilst the cashflow timing is being reviewed and updated by NTA to reflect the programme of work.

#### Other Income

 Waste disposal levy income has been received from Ministry for Environment for the recycling and waste minimisation work.

#### Central Govt Subsidies - New Works

 Income received from Waka Kotahi (NZTA) for road-to-zero projects is ongoing from last financial year 21/22.

#### Central Govt Subsidies - Renewals

 Income has been received for unsealed road metalling carried over from last financial year 21/22 whilst the cashflow timing is being reviewed and updated by NTA to reflect the programme of work.

## **Other Contributions**

 Planned Provincial Growth Funds (PGF) capital grant received for the road seal projects at Ruapekapeka, and Peria Road, whilst the cashflow timing is being reviewed and updated by NTA to reflect the programme of work.

## **Council Financial Performance – Operational Expenditure**

Please note these figures relate to the Statement of Financial Performance controllable costs only, which excludes allocations, interest costs, depreciation and other asset costs and gain/loss on disposal.

## Highlights:

#### Staff related costs

 Due to a system error, the accrued leave for employees is more than expected for the month. This has been corrected in August.

#### **Contractor Fees**

- Wastewater contractor fees were higher than expected due to increased labour costs driven by storms and high rainfall during July.
- Maintenance works ongoing across the roading network for sealed & unsealed pavement maintenance, drainage, structures, environmental, and traffic services maintenance whilst the cashflow timing is being reviewed and updated by NTA to reflect the programme of work.

#### **External Services**

 Wastewater Sludge Management is under budget. There is no new de-sludging work programmed over winter. Works will commence over the spring period.

#### **Professional Fees**

- Stormwater Asset Condition Assessments are under budget, the contract was awarded in July and work will commence in August.
- Water professional fees, grants and donations are under budget. Both are waiting on an agreement to be signed with the Kaikohe Water Company in relation to the Matawii water storage and design.
- Strategic Planning and Policy is under budget in both contractor fees and professional fees. A Northland Inc. contribution has not been paid out yet. The District Plan and Strategy Development is under budget, but both fully committed.

6

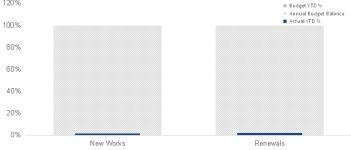

## **Rate Remissions**

Rate Remissions are primarily transacted in the first month for the whole year where
ongoing remissions have been approved. Additional remissions are received during
the year but the timing of these is unpredictable. The unpredictable nature of this
activity makes it difficult to set and time budgets accurately.

## **Council Financial Performance – Capital Expenditure**

These figures are direct from the Statement of Capital Performance.

## **Highlights:**

#### **New Works**

- 3-Waters Reform projects appear to be over budget, whilst seeking Council approval for the carry forward budget.
- A payment for shares in the Kaikohe Water Company has not been made yet.
- Kerikeri Domain revitalisation, Waipapa Sports Hub and Te Hiku o te Ika (revitalisation project) ongoing from last financial year 21/22, whilst seeking Council approval for the carry forward budget.
- Planned Provincial Growth Funds (PGF) road seal projects at Ruapekapeka, and Peria Road ongoing from last financial year, whilst the cashflow timing is being reviewed and updated by NTA to reflect the programme of work.

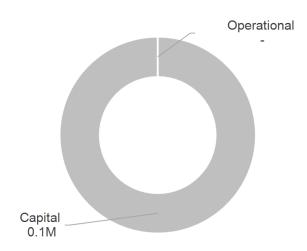

#### Renewals

- Kaikohe Memorial Park upgrade works for purchase and installation of playground equipment and soft fall elements is ongoing from last financial, whilst seeking Council approval for the carry forward budget.
- Unsealed road metalling works ongoing from last financial year whilst the cashflow timing is being reviewed and updated by NTA to reflect the programme of work.

## **Unbudgeted Expenditure**

These are additional works not included in the original budget for the current year.

Unbudgeted work greater than \$100,000 must be approved by Council, anything less than that can be approved by a General Manager with appropriate financial delegation.

## Unbudgeted Expenditure as at 31-July-2022

\*Expenditure over \$100K approved by Council (in grey)

| Unbudgeted Capital Works |                                   | Amount |
|--------------------------|-----------------------------------|--------|
| Kaitaia Airport Security | CAPEX New Works Contract Services | 20,000 |
|                          |                                   | 20,000 |

| Unbudgeted Roading                     |                                   | Amount |

| Hall Road Streetlights - Arvida        | CAPEX New Works Contract Services | 60,000 |
| Daroux Drive Unsealed Upgrade, Waipapa | CAPEX New Works Contract Services | 37,900 |
| Daroux Drive Unsealed Upgrade, Waipapa | External Services                 | 8,000  |

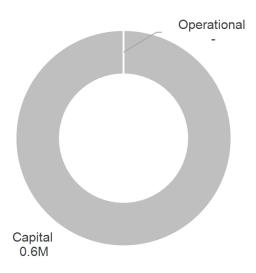

105,900

125,900

## **Budget Movements**

These are budgets timed in future years, brought forward into the current year (positive values) OR budgets timed in the current year to be moved out to future years (negative values).

The figures that follow exclude the \$5M Roading budget adjustment moved out to future years to reflect the lower of FNDC or NZTA budget.

## **Budget Movements as at 31-July-2022**

## Comments:

The 'Total Annual Forecast' is what is expected to be spent by 30 June 2023.

The above completion % are based solely on the actual spend to 31-Jul-2022.

Capital Performance and the Capital Spend Reports vary by \$22k for LTP Group Roading and Footpaths, this will be corrected in August 2022.

## **Capital spend Analysis by %**

The picture below indicates the position if the commitments that are still to be completed are included in the calculations

as at 31-Jul-2022

#### 6.6 CHANGE OF AUDIT PROVIDER FOR JUNE 2022

File Number: A3849531

Author: Angie Thomas, Acting Chief Financial Officer

Authoriser: Janice Smith, Acting General Manager - Corporate Services

## TAKE PÜRONGO / PURPOSE OF THE REPORT

To advise the Committee of a change to the appointed auditor for the audit for June 2022

## WHAKARĀPOPOTO MATUA / EXECUTIVE SUMMARY

The Office of the Auditor General is responsible for allocating an auditor for each public entity that must report under the Local Government Act 2002.

Audit New Zealand was the appointed auditor for Council; however, a letter has been received from the Office of the Auditor General advising that Council's auditor is to change to Deloitte from the June 2002 final audit

#### **TŪTOHUNGA / Recommendation**

THAT THE ASSURANCE, RISK AND FINANCE COMMITTEE RECEIVE THE REPORT CHANGE OF AUDIT PROVIDER FOR JUNE 2022.

## TĀHUHU KŌRERO / BACKGROUND

At the end of each financial year, Council prepares an Annual Report in accordance with the requirements of the Local Government Act 2002. The Annual Report and supporting information are audited each year and Council has been notified by the Office of the Auditor General that our audit provider will be changed to Deloitte.

## MATAPAKI ME NGĀ KŌWHIRINGA / DISCUSSION AND NEXT STEPS

There is an industry wide shortage of auditors and with Covid related shutdowns and reporting extensions, the sector is struggling to complete audits in a timely manner.

Unlike many firms, Audit New Zealand are not able to draw on resources from overseas offices and the audits they are responsible for are determined by the Office of the Auditor General, which gives them little latitude in determining the work they can achieve.

To address this, the Office of the Auditor General has determined that the Far North District Council and Far North Holdings Ltd audits will be transferred to Deloitte. This will take effect from the June 2022 final account audit and remain in place going forward.

Council is yet to be contacted by Deloitte in terms of an audit plan, but staff are already preparing for the final audit, and it is not thought that a change at this point would disrupt or change the work underway. The outgoing auditors are expected to work collaboratively with the incoming auditors to ensure a smooth transition.

Council signed of on an audit proposal for the June 2022 audit as part of the documentation submitted last year and it is confirmed in the attached letter that these fees will be honoured by Deloitte.

## Proposed audit fee for the year ending 30 June 2021 and 30 June 2022

Our proposed fee for your audits (compared to budgeted and actual data from the previous financial year) are:

| Structure of audit fees                                  | 2020<br>budget | 2020<br>actual | 2021<br>proposed | 2022<br>proposed |
|--|----------------|----------------|------------------|------------------|
|  | \$             | \$             | \$               | \$               |
| Net audit fee (excluding OAG ASQS fee and disbursements) | 162,466        | 254,062        | 177,088          | 187,823          |
| OAG Audit Standards and Quality<br>Support (ASQS) fee    | 14,017         | 14,017         | 15,279           | 16,654           |
| Adjustment to fee/ balance written off                   | -              | (91,596)       | -                | -                |
| Total audit fee (excluding disbursements)                | 176,483        | 176,483        | 192,367          | 204,477          |
| Estimated disbursements                                  | 20,000         | 21,922         | 24,000           | 24,000           |
| Total billable audit fees and charges (excluding GST)    | 196,483        | 198,405        | 216,367          | 228,477          |

# PĀNGA PŪTEA ME NGĀ WĀHANGA TAHUA / FINANCIAL IMPLICATIONS AND BUDGETARY PROVISION

The are no financial implications associated with this report.

By email: blair.king@fndc.govt.nz

For the attention of the Chief Executive and/or the Chairperson of Far North District Council

Tēnā koe Blair

#### Change of auditor

I'm following up on a phone call that my colleague, Laura Cannon, had with your CFO - Janice Smith on 19 August about this matter. The purpose of Laura's call was just to advise you that this letter would follow.

You may be aware that an industry-wide auditor shortage and subsequent Covid-related lockdowns have been disruptive for many audit firms, resulting in delays to the completion of many audits. We expect that it will take time to restore capacity throughout the audit profession.

It is important that the Auditor-General takes all possible steps to ensure that the audits of public organisations are completed in a timely manner, to help maintain trust and confidence in the public sector.

We have been working with all audit service providers to ensure that they are well positioned to complete their public sector audits on time. Some firms are able to access additional staff from their overseas offices, and most are able to make commercial decisions about the audits they take on or relinquish. Audit New Zealand is unable to take these steps.

As a result, we have been carefully considering the short-term and longer-term options for a number of audits and propose to reallocate some from Audit New Zealand to other audit service providers. In doing that, we have continued to apply the principles that are important in appointing an auditor – independence, their knowledge about public organisations and public sector audits, the particular audit skills required, and the need for the Auditor-General to always have access to enough audit capacity and capability.

Your audit is one that we propose to reallocate, from Audit New Zealand to a partner from the firm of Deloitte Limited. This change will mean that your audit is completed as quickly as possible, this year and in subsequent years.

We recognise that reallocating your audit after your financial year has ended is not ideal and might cause you some disruption. We will expect your outgoing appointed auditor to work collaboratively with the incoming one, to ensure a smooth transition.

#### New Audit Proposal, and audit fees

Deloitte Limited will need to prepare a draft Audit Proposal for discussion with you. The proposal will cover the statutory basis for the audit, key staff assigned to the audit, and the audit hours and fees for each audit year. The new proposal will be for an initial term commencing with the 2022 audit.

If audit fees have already been agreed for your audit, those audit fees will be honoured.

If audit fees have not been agreed for your audit, the new auditor will need to work with you to agree them. Under the Public Audit Act 2001, audit fees must be reasonable, which means they should be fair to the entity, and provide a fair return (but not more than that) to the auditor for the work that is required.

We provide audit firms with guidance to follow when setting audit fees. You and Deloitte Limited need to agree a way to understand the real costs of the audit and agree future audit fees that are reasonable. We expect the Deloitte Limited to use the first year to understand and properly scope future audits, and to propose audit fees for future years based on that initial year's understanding (excluding, as always, any first-year investment in understanding your entity).

The first year might need to have an estimated fee with an agreed means of confirming that during and after the audit. For example, a helpful process we have used requires the auditor and key entity staff to have a short regular debrief (for example, at the end of each week) to understand that week's work and costs, and especially to understand any inefficiencies from either side.

The Audit Proposal will contain the appointed auditor's expectations of your organisation in relation to the audit. You'll need to work together with them and take the opportunity to discuss those factors that are within your control to make the audit less time-consuming and more efficient. As we always do, we will review the proposed audit fees to ensure that they are reasonable.

## **Auditor independence**

The Auditor-General sets independence standards for auditors acting on his behalf, which include the standards set by the External Reporting Board. He limits the nature and amount of work that an auditor can carry out for an organisation to the audit itself and other assurance work. If you have any concerns that some work your organisation expects your auditor to carry out, or might ask your auditor to carry out, is not assurance work, you are welcome to seek our views.

If you wish to discuss any aspect of this letter, or, after discussion with your auditor, require our analysis of the proposed audit fee, please contact me at <a href="Murray.Powell@oag.parliament.nz">Murray.Powell@oag.parliament.nz</a>

Nāku noa, nā

Murray Powell Audit Projects Director

## 6.7 ASSURANCE, RISK AND FINANCE COMMITTEE ACTION SHEET UPDATE FOR JUNE 2022

File Number: A3793240

Author: Joshna Panday, Democracy Advisor

Authoriser: Aisha Huriwai, Team Leader Democracy Services

## TAKE PÜRONGO / PURPOSE OF THE REPORT

To provide the Assurance, Risk and Finance Committee with an overview of outstanding decisions from 1 January 2020.

## WHAKARĀPOPOTO MATUA / EXECUTIVE SUMMARY

- Council staff have reintroduced action sheets as a mechanism to communicate progress against decisions/resolutions and confirm when decisions have been implemented.
- The focus of this paper is on decisions made by the Assurance, Risk and Finance.
- Action sheets are also in place for Council and Community Boards.
- There are no outstanding or overdue actions for the Assurance, Risk and Finance.
- All actions for the Assurance, Risk and Finance Committee from 1 January 2020 have been completed.

## **TŪTOHUNGA / RECOMMENDATION**

That the Assurance, Risk and Finance Committee receive the report Action Sheet Update for August 2022.

## 1) TĀHUHU KŌRERO / BACKGROUND

The Democracy Services Team have been working on a solution to ensure that elected members can receive regular updates on progress against decisions made at meetings, in alignment with a Chief Executive Officer key performance indicator.

Action sheets have been designed as a way to close the loop and communicate with elected members on the decisions made by way of resolution at formal meetings. Action sheets are not intended to be public information but will provide updates to elected members, who, when appropriate can report back to their communities and constituents.

There are no outstanding or overdue actions for the Assurance, Risk and Finance. All actions for the Assurance, Risk and Finance from 1 January 2020 have been completed.

## 2) MATAPAKI ME NGĀ KŌWHIRINGA / DISCUSSION AND OPTIONS

The outstanding tasks are multi-facet projects that take longer to fully complete. The Democracy Services staff are working with staff to ensure that the project completion times are updated so that action sheets provided to members differentiate between work outstanding and work in progress.

## Take Tūtohunga / Reason for the recommendation

To provide the Assurance, Risk and Finance Committee with an overview of outstanding committee decisions from 1 January 2020. There are no outstanding or overdue actions for the Assurance, Risk and Finance. All actions for the Assurance, Risk and Finance Committee from 1 January 2020 have been completed.

## 3) PĀNGA PŪTEA ME NGĀ WĀHANGA TAHUA / FINANCIAL IMPLICATIONS AND BUDGETARY PROVISION

There are no financial implications or need for budgetary provision in receiving this report.

## **ĀPITIHANGA / ATTACHMENTS**
