Hi Selina

Yes, there is another owner on this site – Christine Scott, who was consulted before we submitted road name suggestions.

Please see below for an email from Christine in regards to some inquiries she made at the time. After receiving this email it was agreed between Ms Scott and Woodlot that we would like to honour the history of the site owned by Ms Scott in using the name Rivercrest, which has been associated with this land for over 40 years as stated in our road name application. Hope this helps.

Kind regards

Kaye Adamson on Behalf of David Broomfield Managing Director

Kia ora David,

Can you please advise if there are any owners on this site at the moment and if so, were they consulted of the suggested name of the road.

Regards,

Selina Topia
