Issues

- Still no actions re RFS on Rarere Terrace other than one phone call with a promise of more information
- Still no response re RFS on Mission Road
- Awaiting notification re Winsor Landing. Is FNH proceeding, when will it be completed
- Concerns that we as Community Board are not being provide with all information re some of our deliberations. Various parties, when not in agreement with Boards decisions, appear to undertake "lobbying" to achieve a different result
- Growing concern as to WHO is controlling various tourism issues in Northland??
- Continued concern in regard to the income from Cruise Ships and the potential damage to the core tourist income sectors e.g. Accommodation, Food.
 - Cruise Ships paying well below NZ minimum wage not fair competition for local business
 - Will make formal request for information as to income from Cruise Ship industry (not estimated spent of passangers)
- Bus tours should be reviewed as to income, jobs created and the use of public funded facilities.

- I believe that various parties are making decisions based solely on commercial interests that effect our communities, and we should take a more holistic view of proposals.

Resource Consents

- The new method of notifying resource consents is not as easy as the previous method it is difficult to in some cases find the address much less detailed information. If the staff could provide even a brief description of address and project then we could respond quicker.

Requests for Service/Information

Nil
