GENERAL INFORMATION AND GUIDELINES

Ensure that road names are not duplicated in the Far North District (*both spelling and pronunciation to be considered*); this includes same road names with different suffix. To do this, please use www.google.co.nz/maps and search "proposed road name (excl suffix) Northland" to check if proposed names may be duplicates.

Ensure that road type appropriately matches the definition of the suffix, such as 'road', 'avenue' etc. Road names without a suffix are now strongly discouraged (e.g. Broadway). The following definitions provide a guide, but please note that other appropriate suffixes that are not in this list may be used.

Appendix - Guidelines for Choosing a Road Name

Road names should be chosen from the following categories provided they meet the criteria in clause 5.5 and 5.6 of this policy.

7.1 History – Weighting 3

7.1.1 The name of a historical person, event, industry or activity associated with the area. Such names may include early settlers and early notable people such as conservationists or naturalists.

7.1.2 The family name of the former owner of a farm or property or the name of the farm or property may be used if a historical context is established.

7.2 Culture – Weighting 3 (*Cultural significance to Maori or culture other than Maori*)

7.2.1 This category includes the name of a Maori heritage precinct, site or track or traditional appropriate Maori name for the area.

7.2.2 All Maori names are to be submitted to an Iwi representative to ensure that they are appropriate, spelt correctly, interpreted correctly and are not offensive to Maori.

7.2.3 Maori should be consulted as to whether they have an interest in the land on which the road is to be constructed and asked if they wish to contribute names at the beginning of the Resource Consent process.

7.2.4 Joint non-Maori/Maori names will not generally be considered.

7.3 Geography – Weighting 2

7.3.1 This category includes local geographical, topographical, geological and landscape features.

7.3.2 Local flora and fauna also fall into this category e.g. trees, plants and animals that are widespread and plentiful in the area.

7.3.3 Views must be readily identifiable.

7.4 Theme – Weighting 2 (*Common or established themes in the area*)

7.4.1 Where more than one road is being created in a development, a common theme is recommended for the names.

7.4.2 Where there is an established theme in an area, new road names should reflect this theme.

7.4.3 Proposed themes for a new subdivision must be submitted to council for approval.

7.4.4 When all the roads in a development or suburb fit a theme, the road layout of the development is easier to remember. The area will stand out on a map.

7.4.5 A theme may contribute to a sense of community within the area. A well chosen theme with the roads named accordingly can leave a lasting impression long after the development process has been completed.

7.5 Noteworthy Person – weighting 1 (*Personal name for special service to the District or community*)

7.5.1 Persons who have made a notable contribution to the area or the District fall into this category. The contribution which can be duly recognised may be in conservation, community service, sport, arts, military, commerce, local government or other sphere of activity.

7.5.2 Names from local war memorials will be considered where appropriate. Permission of surviving relatives should be obtained where appropriate.

7.6 Weighting the Names

7.6.1 Names may fit more than one category. The weighting reflects the relative importance of the categories and enables names to be ranked in order of merit - with the highest scored being the highest ranked.
