To Whom It May Concern

The Kerikeri Cruising Club is aware of the need for more marine access to the Kerikeri Inlet, Bay of Islands & Northland coast & supports the development of boat launching & related car & trailer parking within the area.

The Club would like to express its support for such projects to continue through to Resource Consent for the following reasons:

1. The Club recognizes an increase in demand for boat launching facilities available to the public.
2. The Club already experiences acute parking issues as a result of public use of Club facilities to launch boats over busy & long weekend periods & sees an advantage in new developments to reduce demand on Club facilities & better serve the public.
3. The Club supports the development & enhancement of marine facilities that benefit the wider community generally.

Regards

To Whom It May Concern,

As a boating enthusiast, I've long felt that there was a need for more boating and marine access to the Kerikeri Inlet and our beautiful Bay of Islands.

The development and enhancement of marine facilities in the Bay of Islands would not only alleviate some of the boat launching and car/trailer parking issues within the area, but will also benefit the wider community by creating a place for children to fish off a wharf.

I would like to express my support of such projects.

Regards,

To Whom It May Concern:

Kerikeri inlet has needed another boat ramp for a long time now. We use a ramp most weeks training people to dive and it has become more and more of an issue to find a park and long wait times to launch the boat. We train a lot of schools in the area and have to be back at certain times for there parents to pick their kids up and we waste a lot of time finding a park and launching the boat.

Most weekends these ramps are also jam packed and we come across very angry and frustrated boaties just trying to get out and enjoy the Bay. It seems ridiculous there hasn't been more investment in boat ramps for the area as getting out on the water is what the Bay of Islands is all about.

We strongly support any new boat ramps and we see a lot of support for it come through the shop as this is a big talking point among divers and a common frustration. The whole Bay of Islands community would benefit from a new boat ramp.

Yours Sincerely

Subject: Boat Ramps

To whom it may concern .

I use the boat ramps within the Bay Of islands area at least twice a week .

Generally my use is sea testing boats that I build and handing over new boats to customers . I like to show case the Bay Of Islands and most of my customers take this opportunity to stay for a few days and use their new boats in our piece of paradise .

All to often I have trouble with no where to park or having to wait an excessively long time to launch or retrieve .

Unless something is done to increase the facilities it will impact on my business .

We STONGLY support any effort to improve the facilities we currently have or even better to have some new facilities added .

Please don't hesitate to contact me directly should it be required
