The short
story...

offering Holistic weekend packages. Having liken to seasonal events as such rotating across the mid north.

Shopping locally- positive coffee choices, noted limited healthy options- GF,V and DF dining out and accommodation ok.

Overall a positive collective consciousness, delivered, established, and composed to a very successful event!

The long story will highlight in more detail. Happy reading!!

The long story....

This the sixth (6) natural and traditional health exhibition of this scale and of its kind being held in this area. As we are aware natural and traditional therapies are not well supported in the Western model of healthcare. Under Te Riiti O Waitangi, recognition of Dr Mason Durie, Te Whare Tapa Wha health model created a pathway for such practices within Ministry of Health in Aotearoa New Zealand.

Setting the intent....The 'Mauri'-life force is about empowering people to be there best in health and wellbeing lifting their vibration. Offering an array of natural and traditional practices to and for the people. Both now and in the near future.

Collative consciousness and efforts bought to you under the guidance, insights, passion- driven commitment of a small group of Maori therapists, their friends, associates, greater networks, and families had created the ideas and implemented these at the LTW health expos.

Secondary advice was sort form Maori leaders, in regard to Kaikohekohe heritage and the synchronicity of Maramataka -nautical direction of planning for new projects and Matariki - Celebrating the Maori new year were paramount to this event timing and delivery.

Lighting the Way(LTW) and this event ran in conjunction with the Matariki Light Festival at Te Pu O Te Wheke Gallery at the request of people for the people. Shared interests to the "Lighting" creative tamariki assemblies' instrumental in making the glow tunnel , helping with event props and art activities as need be, that was displayed and utilized interactively as a playground at the community gallery thru Matariki. The guitar night and poetry night also were run in combination by means to this LTW event.

Matariki 'powhiri' was on the 1st of June 2018. Called to serve also embraced this holistic wellbeing "Oranga" arm of Lighting the Way Winter Wellness Matariki festival. The two-day timeframe duration for this event was marked by the new moon- associated with the world universal light activation...celebrations of Matariki Pleiades the star cluster that Maori ancestral practices followed.

Liken to turning on a starth...lifting and lighting the way. For new direction, for change, for clearing, for strength, for understand, for forgiveness, for information and human experience. A process that teaches individuals to take back and be responsible for our own health in its entirety (Mana). Set intent for healing to everyone of this community, trauma of the land, intergenerational trauma, love, compassion and togetherness- lifting the spirit(mauri).

The diversity of site holder's academia, skills, knowledge, depth of expertise, years of experience is over 200 years together. The teachings in Maramataka and tikanga even older- ancient practices in a modern world.

This event dealt in all aspects of health and primary care psychology and rehabilitation. The site holders both invited and volunteered themselves from many walks of life. Some hold completely different day jobs to what they presented and provided at event. Some regular followers of health expo both ,Australia and abroad. Some were insistent in telling us they were called to Kaikohe to help this community. Some providers were completely new to public presentation- this being there first general public event experience.

LTW group have set a high precedent of providers to these events which require the appropriate qualifications to health practice and/or letters of support indication length and time in services and product validationie patented or sanctioned under a national organization as example Mo rongoa under -Te Teriiti O Waitangi, counselling to NZCSA, massage to Massage Institute and so forth.

The environment was set up in exhibition cubicle sized sites around the circumference of the hall and back to back down the middle as indicated on site plan. Providers strategically placed side by side to synergies for best energy and safe practice. 30 sites in total. This year we used the stage area to present the screening of 'He Oranga Pumau' and various workshop presentations thru out both days.

He Oranga Pumau....a short documentary of a Hokainga woman (Tanya Fila) journey living with a an aggressive brain tumor, her treatments both mainstream and natural, challenges and execution. This screening draw interests from many...Maori Television Te Karea interviewed Tanya at LTW event. Invitations to further screening have been sort after across the motu and into Parliament.

The building itself took a bit of heating (costly at \$2 per 15 minutes for in house heating system) however eventually in addition to letting the sunlight in was warm and comfortable.

Free entry to over 280 people greatly received each Festival day. This was calculated in an aged and ethic group listing on the Friday - entrants counted in totality on the Saturday with a click device.

Site holders had reported a steady flow of engagement. Provider feedback patrons were so excited going to get friends and family and returning for more same day and next day.

Readings and bodywork services highest in demand, awaiting and wanting for future. Simply people want insights and have sore bodies.

Overall promoting a huge range of service to service questions, expression of interests and plenty of demand.

All participants asked, reported having achieved a positive service and products at this event.

All ages including children and elderly received bodywork. Some providers had relished the moments of exchanging treatments for themselves.

...what was available?

Our gate(door) keepers were able to direct patrons to the appropriate site holder for specialist treatment. Being Matekite themselves were able to scan aura for directive perceptions.

One noted feedback, to this event 'flyer' being a universal salute to the universe beside the Hone Heke monument itself. What started as a controversial subject was consoled by the sharing of the calling, guidance shared. Which lead to interesting conversations especially too the whakapapa, history of Hone Heke and Hone Hika and to the land itself and stories of old and where we were reflected today...patron able to articulate as direct descendant.

The booklet had two Northland people in it, which made more real, tangible, and doable. A 'free draw giveaway' valued at \$90 had capsulated listed interests of 12 people. Four of which today are taking the products.

that these services are now available in mental health services to Hokianga Health Trust. Patrons reported engagement was interesting and didn't know until then, how beneficial hypnotherapy could be. A patron that expressed having a negative experience in the past with a councilor reported a renewed faith in counselling after meeting this provider.

A practice that based around how to release tapped emotions...trapped in energies, toxicity, circulation, pathogens, structural and nutrition assimilation. Explanations of how emotionally charged past events can affect people today. Emotions are energy in motion that can be release by asking a sequence of questions pertaining to as in the answer needed to the release.

Te Kete O Te Ao Marama are ancient teachings, channeled thru mediums in land, sea and sky art-photography reading cards. Homemade by this provider. What is seen in the in the unseen, so to speak. As example when you look into the flames of a fire what do you see. The mind naturally scans the subconscious mind for insights. This the true of what needs to be known. The light of the moon (te ao marama) the answer can be seen....this provider noted a steady interest in beauty and essence in pictures and expression on cards.

Gunineve medium...was continually kept busy, engaged and thrilled by the interests expressed by patron. A lot of very satisfied patrons. The Tamariki Corner is always a sensation. Everyone has the opportunity to pick up a ukulele and strum a tune or two....some adults conveyed having done so with great enthusiasm and excitement- thrilled that they completed playing the whole song and at how simple it was.

The little ones had their face paintings- looking very skillfully awesome little princess, butterflies, wolves, superheroes and more, storytelling, coloring in, drawing, alphabeatable- a tapping alphabet game where you challenge beating your own time, drafts, norts and crosses and connect four...competitively to win prizes(everyone who participated won a prize!)

The Matariki Activity workbook made interesting resources for youth as these had word search in Maori and English, discover what, whats important, games, stories, food, whenua, and whanau and information pertaining to Matariki, Maramataka and meanings.

The Head, Heart and Hands Competition. An art project invitation to all the local schools. Was accepted with good enthusiasm, we captured some of these winning school posters -Kaikohe East School (as in the pictures). The story behind HHH was to give the children the opportunity to express what was the heart of the area, who they thought to be leaders of their school, who are the helpful people, families- themselves they valued and who cared the most around then and why. Teachers- principals reported some interesting stories where shared around the kaupapa together with their own in classes activities to Matariki. Enthralled to have the inclusion in this festival.

Marketing efforts....

Hard copy marketing was thru letterbox drops to Moerewa, Kawakawa, Pahia, Kaikohe, North and South Hokianga. Community 'Whats on', in the Northern News. Apparently, there was a post event write up we've not yet seen.

Roadside signage, was at all entries to Kaikohe, main street and outside the hall itself.

Coloured flyers posters placed across the mid north.

Black and white flyers handed to agencies, networks and organizations.

LTW health Expo Facebook page, website and FB friends, families, and associates.

Radio exposure with Radio Tauroko FM, Whangarei declined a community shout as we didn't fit into the region. We missed the breakfast show, community news on NZTV as emails issues hadn't made it to the recipients.

Consumables included part of resources to pre, during and post event.

A Health and Safety compliance check was completed by a NZ Worksafe associate.

H& S findings;

*Ceiling hanging ropes needed to be tied back and higher.

*Power points need to fixed.

NB risk-As a result providers had extension cords and joiners using power board on power board.

*The on the stage at the right side banister needs replacing as very loose and unstable.

*Heating?...consideration to a stir fan at center hall roof to send warm air back around the room.

*A 'caution indicator-tape' on the step in doorway to entry of hall.
