Serious concerns over Freeze Park Omapere NO wheelchair or pram access to the beach with the work having been completed. Sea wall plans originally included built ramps and paths with access to the beach but this has not been done appropriately. FNH contracted Ventia to do this but the job has not been done well, at all! A park backs onto

		where the sea wall is and it seriously lacks access to the beach.

Footpaths and Berms Opononi  
– on SH12 Opononi in front of  
the BOWLING CLUB

Maintenance needed to clean  
gravel travel and debris from  
Fairlie Crescent intersection to  
bowling club.

This has not been remedied.

The footpath as of the 19 November, I can see has been cleared and can be at least walked on now – however the drainage still needs to be addressed and bollards put up to prevent vehicles accessing this small reserve onto the beach.
