## Board Vision and Priorities

### Vision

Because we, the Board, believe:

The people of Te Hiku O Te Ika are enthusiastic, creative, active and co-operative, and they take pride in their ownership of a self-reliant, prosperous and sustainable local economy.

### Mission

***“To engage at all levels with our communities to ensure that the development and provision of facilities and services, are fit for purpose, aesthetically pleasing and sustainable. And follows a transparent, fair and safe process that meets the needs of the Te Hiku Ward”***

### Priorities

As a Board, we acknowledge our sphere of influence within Te Hiku O Te Ika from a Council perspective is:

Our level of influence/mandate	Areas of Council responsibility
Is Relatively High for ....	Communities and people, and local economies
Is Moderate for ....	Halls, Parks & Community Facilities, Built Environments and Town Planning
Is Low for ....	Water reticulation, Waste management, Waste water management, Roding and its infrastructure.

The Board has decided to relate the nature and extent of services and facilities provided by Council to the size of a town, and probably more importantly, to its functional role in a ward or catchment / community of interest. To that end, the table below outlines how that thinking could be applied both through planning processes and operationally.

## Priorities 2018/19

Strategic allocation of Placemaking Fund, Events Investment Fund, Infrastructure Grant Fund and Local Grant Fund in alignment with the Te Hiku Community Board Strategic Plan. Prioritise future work and projects to be co-ordinated geographically, rather than having one small project at a time in an area, combine several, eg several projects planned in Awanui may be completed concurrently.

Consider the future of the Kaitaia Town Clock.

Work with the community regarding the future of Matthews Mission Bush.

Allocate some of the annual beautification fund to weed matting and planting for the bank in Pukenui which is subsiding onto the footpath next to State Highway 1 near the old Spark building. Ensure that this fund is distributed across the ward also.

Te Hiku Community Board recommends an accelerated replacement of the current street lights with LED lights for reasons of community safety and crime prevention.

Possible relocation of existing trees on Commerce St, and replacement with another type of tree - as magnolias are growing into camera zones. Potential use of beautification fund for this purpose.

Contribute to the redevelopment of Jaycee Park/Centennial Park in Kaitaia.

Junior play equipment, seating, shade and drinking water taps for Jaycee Park, with children's playground as the priority, followed by Skate Park. Consideration toward BBQ

facilities, a stage for concerts, a basketball court and fruit trees. Investigate the ownership of the reserve to identify which section is owned by the Tennis and Squash club. Investigate smaller shade structures as an alternative to large structures.

## **Role of Community Boards**

The Far North District Council's three Community Boards are a valuable resource for their communities and should be contacted about local issues before the Council itself is approached.

The Boards have locally elected members who know and support their communities and are the best place to go when there are local issues, problems or situations that need to be addressed.

They are the Bay of Islands/Whangaroa, Te Hiku, and Kaikohe/Hokianga Community Boards.

These Boards are the Council's "eyes and ears" at grass roots level and are often able to resolve issues within their communities without needing to refer them on to other people. However, when extra help is needed, they have the ready attention of the Council and can liaise with other agencies as required.

- a. Represent, and act as an advocate for, the interests of its community;
- b. Consider and report on all matters referred to it by the territorial authority, or any matter of interest or concern to the community board;
- c. Maintain an overview of services provided by the territorial authority within the community;
- d. Prepare an annual submission to the territorial authority for expenditure within the community;
- e. Communicate with community organizations and special interest groups within the community;
- f. Undertake any other responsibilities that are delegated to it by the territorial authority

## **Delegations**

## What we have heard from Community Plans

### *Karikari:*

Karikari Recreation Hub, formerly scheduled for the 2017-2018 financial year, and recently retimed to a later date in the LTP, forms a key component of this plan. The re-timing occurred despite the community plan completion and community submissions in 2018, and the community wish to see these funds brought forward to align with their plan.

Sports field development near the existing courts and community hall. Public toilets for Karikari Recreation Hub to improve community usage.

Installation of Basketball backboards and hoops for multi-court.

Karikari Watersports HQ – beach showers and storage facility for watersports gear at the northern end of Tokerau Beach.

### *Pukenui:*

Establishment of incentives for recycling in future

Poor lighting in Kaitaia

Footpaths not connected in areas of Kaitaia

Upgrade for Jaycee Park playground – more play equipment, shade cover for playground, splash pad playground, shade cover for Skate Park, drinking water fountains for both skatepark & playground, BBQ tables, seating.

Composting toilets wanted for Tauroa Point at Ahipara – possibly a partnership between DOC/Te Rarawa/TIF.

Ngati Kuri have a tourism plan - consider publicly available toilets for Waitiki Landing.

Footpath wanted to connect Allen Bell Basketball Court to the footpath on the street. Healthy Families are working on a plan for the Parkdale Reserve and a focus group has formed. Beach Management Plan will involve consultation meetings and a consultation on the use of public reserves could be conducted in conjunction with this. Kaitia Airport renewals need to be included in the LTP process.

## **What we have funded**

Community Boards fund a range of projects through their Local Community Funding. Analysis of previous years funding is shown graphically below and has been categorised as follows:

1. Operations
2. Events
3. Town Improvements
4. Infrastructure

In 2017 the Te Hiku Community Board agreed to conflate Town Improvements with Infrastructure so that the final graph records only three categories.
