

# Landscape Concept Unahi Wharf

Concrete steps between the wharf and boat ramp. Large rocks separate the vehicles launching boats and the people using the space.

A low rock sea wall protects the concrete recreational space between the wharf and boat ramp. The top of the wall will have long planks creating informal seating and a low barrier

Amenity plantings  
Riparian plantings to filter road runoff before the water runs into the sea.  
Low oioi (jointed rush) plants create a barrier between the carpark and the road, The sign will be in this garden.  
Amenity trees Pohutukawa on the grass area will create spaces for day trpers out of the sun

Concrete tables & seats  
Bird chairs & umbrellas for shade

## KEY

Existing concrete foundation  
Hard Dock for Boat maintenance

Public toilet

Bollards to keep vehicles off the grass and pedestrian safe
