

At the completion of a project that received community funding, recipients are required, as stated in the Community Grant Policy, to submit a Project Report to the Community Board. Project Reports are to be received no later than two months after the completion of the project or if the activity is ongoing, within two months of the funding being spent.

Applicants who fail to provide a project report within the required time will not be considered for future funding.

**Describe the main findings in your evaluation of the project/event; describe how your project/event benefited the community:**

- The pontoons are fitted with stainless steel ladders installed for people and children to use when swimming off the wharf facility.
- The twelve meter and 20-meter floating concrete pontoons float up and down as the tide rises and falls allowing people to step into boats at water level where previously they had to climb up and down ladders or use a wet slippery wooden staircase.
- The wharf allows the community and members of the public unrestricted access 24 hours a day with greatly improved access allowing older and people with disabilities to fish and load onto both trailer and larger boats tied up alongside the floating pontoons with greater ease during any tide time.

**Please provide details and attach or email photos and/or any marketing collateral that was produced for your event/project acknowledging the Community Board:**
